

# Learning together, supporting each other.

## School Improvement Targets 2024/2025

- To foster a love of reading so that children read more widely, broadening their understanding and use of language.
- To support all children to demonstrate excellent behaviour and consistently positive attitudes to learning.
- To use assessment for learning strategies which motivate and engage learners so that all children demonstrate positive behaviour for learning and growth mindset.

Children will be motivated to read.

The % of children who read widely both in school and at home will increase.

Behaviour standards will be consistently high across school and children will uphold school values, no matter which adult is present.

All staff will use a graduated response to behaviours.

Learning environments will be effective and promote positive behaviour for learning from all children.

All children will understand emotions and how to manage them.

Formative assessment strategies will be used effectively to promote pupil engagement.

Questioning will be used to motivate and promote a growth mindset, developing resilience and self-efficiency.

Children are clear about what expected behaviour looks like and travel around school in an orderly manner, showing respect and care for their learning environment.
