

All Stars 2 Summer Governors Report 2023

Foodie Friday has been a big hit in All Stars 2!

The All Stars children have worked so hard throughout the Summer term! We have had lots of fun and have enjoyed a lot of different activities!

Maths

In Maths this term, we have looked at a number of different topics. The children have learnt about temperature, fractions and addition and subtraction. The All Stars enjoyed going all around the school testing the temperature of each room. The children have also learnt about different fractions such as $\frac{1}{2}$, $\frac{1}{4}$ and $\frac{3}{4}$. The children have worked really hard and have all shown fantastic progress throughout

English

In English this term, we have been looking at Animal Adventure Stories. Some of these stories have included 'The Tiger who came to tea', 'The Rainbow Fish', 'The Owl who was afraid of the dark and a variety of others. The children have been able to make inferences based on these stories and have been able to retell these stories in their own words.

Thrive

In Thrive this term, the All Stars have worked really hard and have enjoyed a variety of fun filled lessons! The All Stars 2 children have demonstrated that they are more open to try new things without being as hesitant after encouragement from their adults in class and their peers. The children enjoyed sessions where they made their own balloon puppets. The All Stars made different faces on their balloons such as 'happy' 'frustrated' and 'mischievous'. This demonstrated that the children have a great understanding of different thoughts, feelings, emotions and behaviours. The All Stars children have shown great progress throughout Thrive this term and have worked really hard alongside all of their peers.

Forest School

In Forest School this term, we have had lots of fun and have taken part in lots of different activities. We have enjoyed lots of time exploring the natural world and keeping our forest clean and tidy by picking up any litter and pulling up any weeds. We have also had lots of fun learning all about fire safety but also enjoying lots of yummy treats such as marshmallows and hot chocolate! The children have also learnt about different tools and have even been able to use these tools safely in the forest.

PSHRE/Jigsaw

In our PSHRE/Jigsaw lessons this term, we have been learning all about relationships. This has included looking at families, making friends, greetings, people who help us, being my own best friend and celebrating our special relationships. Throughout the term, the children in All Stars 2 have been able to understand that there are lots of different types of families, they have learnt the appropriate ways of physical contact to greet others and also which people can help us in our school communities. The children in All Stars 2 have taken part in a number of different tasks and activities in order to develop their knowledge of relationships and also to teach the children how to appreciate other people that are special to us. The children have also been encouraged throughout the term to identify positive things about each other in order to build new relationships in the classroom.

All Stars in The Community

This term the All Stars children have been lucky enough once again to go on so many different trips to lots of different places. We have enjoyed so many different trips such as to the Art Gallery which linked to our topic of Artists for the term, the Library and even to a venue in Bacup where we enjoyed a cinema afternoon with pizza and chips! We have had so much fun being out in the community and meeting new people. We have also enjoyed park trips and being outside enjoying the beautiful weather! This term we have entered a number of competitions such as a sunflower growing competition, a number day competition and also a poetry competition which has resulted in some of our children winning prizes for their work!
