

## Chiefs governors report

Spring

English

In English this term we have been reading the text 'The Iron Man' we have really enjoyed this story and made some good predictions about what would happen next in the story. We worked really hard and created our own creatures for our own stories, some were made from mud, ice and wood. We got very creative with our descriptions and wrote some amazing stories. We have continued with our WOW writes and have wrote different genres from different mediums such as video or pictures.

## Maths

What a term we've had in Maths! We have done some fun activities this term, we have been learning how to write numbers in Roman numerals (this was really tricky!), ordering numbers and doing lots of work with fractions and decimals. The best part of this term was the first ever number day! We made number accessories and went on a Maths trail around the forest it was great fun and we enjoyed having a full day just doing Maths!

## Topic

We are a creative bunch here in chiefs so we focused a lot on drawing and some art-based lesson this term in Topic. We have been looking at the Vikings and looking closely at their patterns and animals they used in their jewellery, clothing and statues. We created our own jewellery using clay and created images of Vikings and their longboats.

## Forest School

We love our forest school sessions and always have great fun when out. We had a very special session this term where we got the chance to use tools such as knives, mallets and saws. We were extra careful when using these. We kept on our topic of Vikings and when out in the forest we attempted to work together in teams to build our own longboats!

We try to make sure our forest environment is kept clean and tidy so we have been doing some litter picking whilst out also. We have made bird feeders and had lots of fun tree climbing and on the swing!
