

THE INCREDIBLES

Spring 2024

The Incredibles have made a great start to the year. They have managed the transition from different classes and one child is new to our school. It's like they've always been here!

English

In the Incredibles class, we have been exploring different traditional tales, stories and settings. We have written our own version of the story Wolfy. We have explored instructions and followed instructions and written our own instructions. We have also used the internet and information texts to research different animals. In all lessons we use 'talk partners' to promote our Speech and Language skills.

Maths

In Maths we have been exploring number bonds to 10. We have been using our number bonds to 10 to help us adding three 1-digit numbers and adding 2-digit numbers. We have also been learning about 2D and 3D shapes and how to identify the different shapes by counting sides and vertices on 2D shapes. We have also explored money in pounds and pence. Our Maths lessons are very practical and the children enjoy learning through play.

Science

This term in Science we have been exploring what different animals need to survive. We have also been exploring plants and identifying different parts of plants and what we need for plants to grow.

Foundation Subjects

In Art we have been exploring Silhouettes. We have been creating portrait silhouettes and animal silhouettes. We have used water colours to blend different colours together to make the background. In PSHRE we have been exploring My happy mind and speaking about strategies we can use when we feel ourselves getting upset or angry. We have been practicing our happy breathing.

Outdoor Learning

This term we have enjoyed a lot of our learning in the outdoor environment. We have followed instructions on how to plant chamomile. We have been exploring different shapes we have found around the playground.
