

THE INCREDIBLES

Autumn 2022

The Incredibles have had a brilliant start to the new school year. 4 of our children are new to Cribden House but they have managed this transition very well. It's like they've always been here!

English

In the Shooting Stars class, we have been reading books linked to the topic of school and have explored the characters within them. We have explored our senses both indoors and outdoors to make our own sense poems. We have explored non-fiction texts and have made our own non-chronological reports linked to our Science topic of 'Animals'. In all lessons we use 'talk partners' to promote our Speech and Language skills.

Maths

In Maths we have been exploring the place value of digits and have been using this knowledge to solve problems. Our Maths lessons are very practical and the children enjoy learning through play.

We have been learning about 2D and 3D shapes and have been solving addition and subtraction problems linked to block graphs.

Science

This term in Science we have been exploring animals. We have been identifying animals and recognising the difference between 'dead' and 'alive'. The children have been sorting animals into groups and have been able to identify whether they are herbivores, omnivores or carnivores.

Thrive

In Thrive we have created our own 'Incredible' masks, have enjoyed peer massage and have practiced meditation. We have continued to explore our senses and have been handling materials with different textures. We have linked our Thrive to RE and have made our own Diya lamps, tried food eaten at Diwali and have carved our own pumpkins.

Outdoor Learning

This term we represented Cribden House in the 'Fun Football Festival' held with other local schools. The children practiced their football skills and competed in a mini football match.

In Forest we have been taking our learning outside, getting muddy, planting bulbs and exploring our beautiful forest in a safe way.
