Week 2 – Position & Direction/Fractions
Week 3 – Position & Direction/Fractions
Week 4 – Position & Direction/Fractions
Week 5 – Position & Direction/Fractions
Week 6 – Position & Direction/Fractions

Science

Living Things & Life Processes (Life Cycles) – In this unit the children will explore the life cycles of various animals. They will study the significant differences of each life process and compare and contrast these using scientific evaluation.

Humanities – History/Geography

Our unit (Cultural Exploration) this half term will focus on food from around the world. The children will have the chance to taste, make and explore cuisine from all corners of the world.

PSHRE

This half term we will be focussing on ‘Changing Me’. In this unit we will focus on our personal development and how our bodies change into adolescent.

PE & Physical Activity

‘Athletics’ is our unit this half term. We will focus on all areas of athletics. Our stamina and pace will improve with running, sprinting, jumping and many more sporting activities.

2023/24

Summer 2

Learning Plan

Legends

Forest School

The children will be exploring assault courses, learning how to navigate the natural environment. The children will develop team building skills and above all, have fun!

Computing

Computational Thinking – We will learn how to manipulate images by adding filters, contrast, rotation and theme.

MFL

Jobs – We will continue learning Spanish this year as our ‘Modern Foreign Language’. The children will learn how to phrase basic jobs in the male and female form of the word.

Music

Reflect, Rewind and Reply – The children will revisit all of the previous genres and evaluate and compare the instruments and styles.
