

Wizards Spring term.

What a term the Wizards have had! We have really enjoyed learning through our topics this term of Magical Mayhem and Life on the Farm.

English

In English we have been looking at the features of traditional tales. We loved reading lots of different traditional tales such as Jack and the Beanstalk and Hansel and Gretel. We sequenced the stories and described the different characters. We then moved onto instructions where we loved following the instructions to make a tasty sandwich. Yummy!

Maths

The wizards have been doing great with their number work. They have been recognising numbers beyond 20. We have been learning to add and subtract using our tens frames and we really enjoyed playing games together to practise our new skills. The wizards have become really confident with their numbers and counting this term.

Art

The wizards love everything art. They love getting messy and trying new activities. They have enjoyed making magical potions. They were amazed when we used magic paint to create pictures. We also tried out some baking, we made shortbread biscuits for Burns night and made delicious fruit wands. We loved eating our fruit wands and tried lots of different fruits.

Forest School

The wizards love being outdoors. This term they have learnt about the magic porridge pot and tried cooking porridge on the fire. We had some snow and we went out and did some snow painting. We really enjoyed it when we went river walking, we did get a little bit wet!
