

Wizards Summer term.

What an amazing year we have had! We have had lots of fun learning lots of new skills.

English

In English this term we have been looking at books that have familiar settings and learning lots of different rhymes. We loved learning rhymes and putting our own actions to them. We have looked at different books our favourite being 'The cow who fell to Earth.' We made excellent predictions about the story and even made up our own space animals.

Maths

We have been doing some great work with numbers! We have been learning to count up in 2s and 10s which has been really tricky but we are becoming really confident with our counting! We have also been learning about fractions – we have looked at halves and quarters. We have used our fractions knowledge when playing with our Play-Doh and whilst sharing the cakes and pizzas we have made.

Art

The wizards love getting arty! We have made tambourines and sombrero for Cinco de Mayo. We have learnt a lot about people who help us and we made our own emergency vehicles. For mental health awareness we made cakes and sat as a class to enjoy our cakes and even tried a cup of tea!

Forest School

We have loved the nicer weather recently and enjoyed being outdoors even more than usual! We have done some spring planting including sunflowers. As our topic has been people who help us, we have been helping our groundsman by doing some litter picking. We then went on a sensory walk out on the lawn in our bare feet! We got the chance to take our forest out of school and went to look at some community greenhouses and gardens this was very interesting.

World of Work

We have been very lucky to have had lots of volunteers come in and speak to us about their work. We have sat in a police car, held some rescued reptiles and turned our hand to some African drumming. We asked lots of interesting questions and found out lots of interesting facts about different jobs.
