

# Wizards Summer Term

The children in Wizards have had a wonderful start to the summer term. They have all enjoyed getting involved in the community with visitors coming to school for the world of work week. We have also been lucky enough to have some trips out of school to see a mosque and to go to the library to change our books.

## English

In English we started looking at fiction texts focusing on the story 'Not Now Bernard'. We made our own monsters and looked at familiar settings using the school grounds to help us. We then moved on to looking at non-fiction texts we found these all had a contents page and an index. This tied into the world of work weeks as the books were about different jobs. We wrote about what jobs we would like to do and what we would need to be able to do good at it.

## Maths

In maths we have looked at a variety of different topics, we started working on recognising numbers and place value then moved onto addition and subtraction. We then spent time looking at capacity, we got to use different containers and water to help us with this. We have learnt how to tell the time to the hour and half past, some children moved onto quarter to, quarter past and specific minutes to and past the hour. We have made the most of the nice weather and had lots of outdoor maths sessions that everyone enjoyed.

## Creative

We have been exploring our country, the United Kingdom. We have learnt about the countries it is made up of and their capital cities. We were able to make the four different flags using different materials. We have looked at towns and country sides, focusing on what you might find in the different areas. We even got to make our own town out of Lego!

## Forest School

All the children have enjoyed all the activities completed in the forest this term, we even got to enjoy some sunshine. We got to play in the river, whittle stick, climb trees and we helped Miss Pennington with some gardening. As always everyone's favourite was toasting and eating marshmallows.

## Thrive

In thrive the children have been having fun in their groups working on their action plans. Some children have enjoyed the use of the thrive rooms and others have been enjoying the outdoors. Children have been dressing up, completing obstacle courses, learning nursery rhymes and making their own superheroes.
