

# Reading – Reading – Reading – Reading

Read every day with your child and help make sure they become fluent readers who choose to read for pleasure!

Dear Parents and Carers

A new school year is underway and by now all the children will have reading books and reading logs and should be reading every night at home. Every child from EYFS2- Y6 has a reading day and it is VERY important they attend these every week. The children from Y3-6 are expected to write in their reading logs about the books they are reading.

**At Crowcroft Park we believe that reading is the key to success**

Please make sure you support your child's reading by:

- Talk to your child about what they are reading and check they understand
- Listen to your child read and given them lots of praise and encouragement – let them try and work out new words themselves.
- Make time for reading as a family – read your child stories, show your child that you love reading too!
- Visit the local library and encourage your child to read lots of different types of books
- Talk to your child's class teacher about ways to help and the targets your child is working on

**Visit our school book shop every Monday after school – look out for Mr Bunbury in the playground!**

**Visit the library before and after school with your child – check the school website for opening times!**

Thank you for your support

Mrs A. Mottram

**Spend time reading with your child and help us make a difference.**
