

Crowland Enrichment After School Clubs

Crowland are delighted to once again offer a varied programme of after school clubs, run by both professionals in school and specialist tutors from outside the school. All clubs run for 11 weeks of the school term (except Streetz Ahead which is a block of 8 weeks). The programme of clubs on offer may vary from term to term, but we always aim to provide a good mix of sports, creative activities and fun educational based clubs. The clubs provide a stimulating environment in which the children can learn new activities and develop their skills even further. Children will have a lot to look forward to each week with our high-quality, jam-packed schedule that enables children to learn through play, meet new friends and most importantly have fun!

Our exciting schedule allows children to enjoy;

- Eddie Kone's Brazillian Jiu-Jitsu (EKBJJ)
- Football Club with Coach Wayne
- Singing Club With Mr Timms
- Art and T-shirt Club with Miss Mills
- Archery with Premier Education
- Fencing with Premier Education
- Ballet with Premier Education
- Computer Coding Club with Mr Goodsir
- Dancing Club with Streetz Ahead
- Fun Maths with Mr Sampetru
- Lego Club with Mr Grange & Ms Yazgili

The Activity clubs will run from **Monday 27th September 2021 until Friday 17th December 2021 (excluding Monday 25th – Friday 29th October 2021)**. This is a total of 11 weeks. Please use the timetable to choose the clubs that you would like your child to attend and book online using your Parent-pay account. The online facility will be open between Monday 20th September from 11:00 am and Friday 24th 6:00 pm. **There are a limited number of places for each activity and they will be offered on a first come, first served basis.**

Our Childcare Provision (3.30pm – 6.00pm) will continue to be available as normal. If your child is attending an after school club, they can join the Childcare facility thereafter for an extra **£5.00**. If you have any queries please contact the front office.

Eddie Kone Brazillian Jiu-Jitsu (EKBJJ)

Professor Eddie Kone has proven himself to be as accomplished a teacher. He has been teaching Gracie Jiu-Jitsu since 2005 and has a detailed approach to teaching; coming from the direct lineage of Grandmaster Helio Gracie and his sons, Eddie has the ability to breakdown any technique, making it easy for anyone to learn.

Many of his students have included Police officers, martial artists of various styles, professional athletes and celebrities. Eddie teaches full time at the Academy Headquarters, that includes young children's group classes, private classes as well as international seminars.

During Professor Eddie Kone's years of training he has had the privilege to learn directly from Grand master Helio Gracie – Rickson Gracie – Royler Gracie & Royce Gracie and continues to learn alongside them today.

Premier
Education

Archery

For children, Archery is an incredible way to develop accuracy, concentration and patience. There are very few sports which require such a level of precision. Premier Education's expert coaches are trained to make sure that every child improves, no matter what level they start at. Archery also teaches some fantastic transferable skills, which can help everybody excel in a wide range of sports.

Fencing

Fencing is a great way to build focus, accuracy and lightning-fast reflexes. One of the reasons we love fencing is that, to enjoy it properly, every child needs to practise respect and good communication. Listening to your opponent and the referee are absolutely needed if you want to have a good time. And, of course, our coaches provide premium equipment which is perfectly safe in even the most enthusiastic of hands.

Fencing is exciting and active, without being strenuous. Speed and precision are much more important than strength, which means children leave our sessions feeling revitalised, energised and ready for whatever may be next.

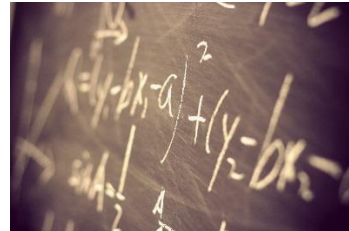

Ballet

We believe the achievement in dance contributes to the development of a wide range of competencies and life skills, such as motor control, health and safety awareness, self-expression, physical fitness and stamina, discipline, mental ability and confidence. Through ballet, children also develop creativity, expression and musicality using a range of different sounds and musical styles. Most importantly dance is also about having fun.

T-shirt Club and Art Club

Run by our resident artist Miss Mills, T-shirt Club is a great enrichment opportunity for pupils with creative minds. Sessions are designed to light the spark of children's imaginations and creativity. In the past, T-shirt club has proven very popular and the children LOVE to wear their handmade shirts to show their achievements in T-shirt club.

Fun Maths

Run by our very own maths genius, Mr Sampetru, 'Fun Maths' covers a wide variety of the maths curriculum, but in greater depth and with significantly more opportunities for problem-solving and logical thinking. Your child will typically spend an hour each week, working through exciting problem solving tasks. The sessions will also give children the opportunity to develop their communication and team building skills.

Lego Club

The wonderful Mr Grange & Ms Yazgili will be leading Lego Club which is aimed at children from EYFS, Year 1 and 2. Lego Club helps children develop and reinforce play and social skills. Using LEGO bricks is the perfect opportunity for building fine motor skills! Through the use of LEGO Children will build strong muscles in their hands that will help them do other skills, such as learn to write and manipulate other small objects.

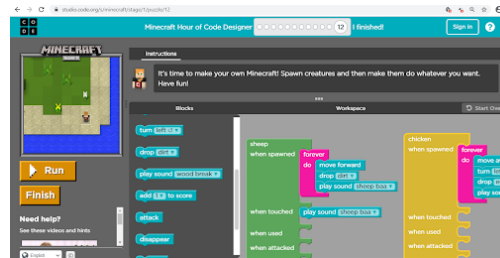

Football Club

Our sports specialist, Coach Wayne, has a wealth of experience coaching children of all ages, at different levels, from beginner sessions to club football. Throughout his time coaching, Coach Wayne has supported and coached many children to a high standard – some have even reached professional level! Not only do Coach Wayne's classes improve children's technique and skill but they also develop their ability to work collaboratively.

Streetz Ahead

Streetz Ahead inspire young people to realise their potential and build their confidence through the power of dance and the magic of performance. They are a registered charity providing free, weekly dance and performing arts classes to young people throughout North London, who may not have access to such opportunities.

Computer Coding Club

The language of the future! The type of prospective jobs for the children of our future has changed hugely and some people think it is now just as important to teach children coding as it is reading. At Coding Club, children learn to code while building their own video games. They gain problem solving, critical thinking, and STEM skills whilst having fun with support and guidance from our computer wizard – Mr Goodsir!

Mike Drop Singing Club

Finishing on a high note, we aim to bring out the best in our children through the wonderful world of music! Focussing on a range of techniques, the extremely talented Mr Timms will help our young children become more confident and develop lifelong skills. Children will be given the opportunity to explore their creativity as they develop their singing skills.
