Getting from here to there

Show your partner a route that you could program your robot to move that would get it to the square matching the card.

Computing in Year 1

Computing in Year 1

Year 1 have been working hard this half-term with their computing. They have been using bee-bots to help learn all about programming. They have enjoyed learning about algorithms and know they are a simple set of instructions. Using a map, the children were given a starting point and a finishing point. They had to identify the route, write out the code and input it into the bee-bots.

Crowland Choir at Voice In A Million 2024!!!!

Last month our amazing choir took part in 'Voice in a Million' OVO Wembley Arena to raise funds for adopted children.

Many schools took part from all-round the country. Our Crowlanders did us proud representing our school with lots of energy and enthusiasm. Well done Crowland Choir, we are so, so proud of you! Here's what some of our incredible singers have said about their experience:

I think it's the best feeling in my life because there's a bunch of people here all singing at the same time and there's famous people here and it's nice.

I think it's absolutely amazing, the best thing I've done in all my life and I think it's very good that everyone is singing the same song at the same time. It almost makes me cry

Thank you, Mr Adebayo, for yet another brilliant and awesome musical experience!!
