

A young man with short brown hair, wearing a dark blue school suit jacket, a white shirt, and a blue and yellow striped tie. He is wearing a light blue surgical face mask. A small red poppy pin is visible on his jacket. The background is a blurred indoor setting, likely a school or college.

Regular rapid Covid-19 testing

Up to 1 in 3 people who have Covid-19 have no symptoms and could be spreading it without knowing.

You can get regular rapid testing from your school or college to protect your friends and family.

Get your test at school or college
