Half: One of two equal parts of something that has been divided into two equal parts.

E.g: We have shared the cake into 2 equal pieces, there we have half of the cake each.

Top Tips

The secret to success is little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.

- Different representations: Because you know that half of 10 is 5 you also know that 10 divided by 2 is 5 and 10 divided by 5 is 2.
