Deepdale Community Primary School
Autumn term: Maths Year 3
Termly Number Non-negotiables

Within teaching, there will be regular reasoning opportunities for children, allowing them to develop their skills in explaining and justifying their thinking.

Counting and Place value
The great majority of children will be able to:

Count forwards and backwards from any number up to 1000
Say what each digit represents in a 3 digit number
Compare and order 3 digit numbers to 1000.
Find 1, 10 or 100 more or less than any given number.
Count in multiples of 4, 8, 50 and 100.
Solve number problems and practical problems involving all of the above

Number: Addition and Subtraction
The great majority of children will be able to:

Add and subtract mentally 3-digit numbers and one. For example 256 + 8
Add and subtract mentally 3-digit numbers and tens. For example 453 + 40
Add and subtract mentally 3-digit numbers and hundreds. For example 378 + 500
Recall addition and subtraction facts for 100 for multiples of 10 and 5 For example: 70+30=100   100-40=60 65+35=100 100-55=45
Add numbers with up to 3-digits using written columnar method.
Subtract numbers with up to 3-digits using written columnar method.
Solve number problems, including missing numbers and using number facts

Multiplication and Division
The great majority of children will be able to:

Recall their 3 times tables and related division facts.
Recall their 4 times tables and related division facts.
Recall their 8 times tables and related division facts.
Solve problems involving multiplication and division
