

Beacon Fell—Fieldwork

Summer 1 Year 5

Vocabulary

Fieldwork	Fieldwork is when you go outside the classroom and find things out for yourself. When carrying out fieldwork, you will need to: observe, plan and question.
Deforestation	Cutting down of forests or groups of trees which is then turned into non-forest use such as farming.
Human Features	Things that have been built by humans—buildings, bridges, roads, motorways
Physical Features	Physical features like seas, mountains and rivers are natural. They would be here even if there were no people around.

Beacon Fell

Beacon Fell is a fell in Goosnargh in Lancashire, England. The high ground, which rises to 266 m, has been a country park since 1970. It is situated within the south westerly part of the Forest of Bowland, an Area of Outstanding Natural Beauty.

Geographical skills and fieldwork

- Use fieldwork to observe, measure record and present the human and physical features in the local area using a range of methods such as, sketch maps, plans and graphs, and digital technologies.
- Use maps, atlases and digital/computer mapping to locate and describe features studied.

Deforestation:

What is it doing to our world?

Deforestation is destroying the habitats of many animals leading to their death and possible extinction. Deforestation is one reason for global warming, which is having a devastating impact on our planet –flooding, shrinking sea ice, changing seasons and rising sea levels.

Data Collection

Analyse and interpret data and present my findings using graphs
Collect data and create maps based on this data
