

Year 1 - Home Isolation Maths Learning Page

Autumn Term 2 Weeks 8-14 2021

At Deepdale Community Primary School we block maths topics across the year to allow for depth in learning, however there are regular opportunities planned to allow for the revisiting and rehearsal of key mathematical concepts.

Below are a list of web links to daily Maths videos that will support your child's Maths learning from home. These match, as much as possible, the learning that will be taking place in the class that day. The videos are only released on a weekly basis so a new link will be added each week.
