

Delph Side Primary School Anti Litter Policy

March 2021

- To create and sustain a litter free environment.
- To encourage good practice with regard to litter management in school and promote 'Reduce Reuse and Recycle'.
- To be aware of local and national litter policies and events.
- To make pupils, teachers and visitors aware of the dangers of litter to humans, plants and animals.
- To establish excellent routines with regards to litter disposal.
- To make pupils and teachers aware that some litter can pollute the soil, water and the air.
- To improve standards of cleanliness in the school and the school grounds.
- To keep litter under control in the children's environment whether at school or at home.
- To encourage children to influence and educate their parents about a litter free environment.
- To make pupils and teachers realise that some materials are non-bio degradable and must be disposed of properly and permanently.
- Ensure that the litter policy follows the ethos of the school's eco- code.
- To review the policy every year. Involve the children in policy making.
- Place bins in convenient places around the school.
- Place litter logos around the school.
