

Mental Health and Emotional Wellbeing Policy

Policy Statement

Mental health is a state of well-being in which every individual realises his or her own potential, can cope with the normal stresses of life, can work productively and fruitfully, and is able to make a contribution to her or his community.

(World Health Organization)

At Delph Side, we aim to promote positive mental health for every member of our staff and student body. We pursue this aim using both universal, whole school approaches and specialised, targeted approaches aimed at vulnerable pupils. In addition to promoting positive mental health, we aim to recognise and respond to mental ill health. health issue. By developing and implementing practical, relevant and effective mental health policies and procedures we can promote a safe and stable environment for pupils affected both directly, and indirectly by mental ill health.

Scope

This document describes the school's approach to promoting positive mental health and wellbeing. This policy is intended as guidance for all staff including non-teaching staff and governors. This policy should be read in conjunction with our medical policy in cases where a student's mental health overlaps with or is linked to a medical issue and the SEND policy where a student has an identified special educational need.

The Policy Aims to:

- ♣ Promote positive mental health in all staff and students
- ♣ Increase understanding and awareness of common mental health issues
- ♣ Alert staff to early warning signs of mental ill health
- ♣ Provide support to staff working with young people with mental health issues
- ♣ Provide support to students suffering mental ill health and their peers and parents/carers

Mental Health and Emotional Wellbeing Policy

Lead Members of Staff

Whilst all staff have a responsibility to promote the mental health of students. Staff with a specific, relevant remit include:

- ♣ Liz Ormerod- DSL (Designated Safeguarding Lead)
- ♣ Liz Burton - Mental Health Lead
- ♣ Liz Burton, Carolyn Lock, Heather Hains, Ian Moris – Back up DSLs
- ♣ Liz Burton and Carolyn Noon – Mental Health First Aiders
- ♣ Carolyn Noon – Orange Button Holder
- ♣ Nicola Littler - Lead First Aider
- ♣ Carolyn Noon– Family Wellbeing Coordinator
- ♣ Liz Ormerod - CPD Lead
- ♣ Janine Brady – PSHE Lead

Any member of staff who is concerned about the mental health or wellbeing of a student should speak to the mental health lead in the first instance. If there is a fear that the student is in danger of immediate harm, then the normal child protection procedures should be followed with an immediate referral to a DSL. If the student presents a medical emergency, then the normal procedures for medical emergencies should be followed, including alerting the first aid staff and contacting the emergency services if necessary. Where a referral to CAMHS is appropriate, this will be led and managed by Liz Burton, mental health lead. Guidance about referring to CAMHS is provided in Appendix 1.

Individual Care Plans

It may be helpful to draw up an individual care plan for pupils causing concern or who receive a diagnosis pertaining to their mental health. This should be drawn up involving the pupil, the parents and relevant health professionals. This can include:

- Details of a pupil's condition
- Special requirements and precautions
- Medication and any side effects
- What to do, and who to contact in an emergency
- The role the school can play

Teaching about Mental Health

The skills, knowledge and understanding needed by our pupils to keep themselves and others physically and mentally healthy and safe are included as part of our developmental PSHE curriculum. The specific content of lessons will be determined by the specific needs of the cohort we're teaching but there will always be an emphasis on enabling students to develop the skills, knowledge, understanding, language and confidence to seek help, as needed, for themselves or others.

We will follow the JIGSAW PSHE curriculum (compliant with the PSHE Association Guidance) to ensure that we teach mental health and emotional wellbeing issues in a safe and sensitive manner which helps rather than harms.

In addition, we use the Trackit Lights System to encourage pupils to engage in their own behaviours. To promote resilience and healthy relationships, equipping children to develop skills in resolution.

Mental Health and Emotional Wellbeing Policy

Signposting

We will ensure that staff, pupils and parents are aware of sources of support within school and in the local community.

What support is available within our school and local community, who it is aimed at and how to access it is outlined in Appendix 2

We will display relevant sources of support in communal areas such as classrooms and toilets and will regularly highlight sources of support to parents and students within relevant parts of the curriculum and also on social media.

Warning Signs

School staff may become aware of warning signs which indicate a student is experiencing mental health or emotional wellbeing issues. These warning signs should always be taken seriously and staff observing any of these warning signs should communicate their concerns with Liz Burton, our mental health and emotional wellbeing lead.

Possible warning signs include:

- ♣ Physical signs of harm that are repeated or appear non-accidental
- ♣ Changes in eating/sleeping habits
- ♣ Increased isolation from friends or family, becoming socially withdrawn
- ♣ Changes in activity and mood
- ♣ Lowering of academic achievement
- ♣ Talking or joking about self-harm or suicide
- ♣ Abusing drugs or alcohol
- ♣ Expressing feelings of failure, uselessness or loss of hope
- ♣ Changes in clothing – e.g. long sleeves in warm weather
- ♣ Secretive behaviour
- ♣ Skipping PE or getting changed secretly
- ♣ Lateness to or absence from school
- ♣ Repeated physical pain or nausea with no evident cause
- ♣ An increase in lateness or absenteeism

Managing disclosures

A student may choose to disclose concerns about themselves or a friend to any member of staff so all staff need to know how to respond appropriately to a disclosure. If a student chooses to disclose concerns about their own mental health or that of a friend to a member of staff, the member of staff's response should always be calm, supportive and non-judgemental. Staff should listen, rather than advise and our first thoughts should be of the student's emotional and physical safety rather than of exploring 'Why?'

All disclosures should be recorded on CPOMs.

This record should include:

- ♣ Date

Mental Health and Emotional Wellbeing Policy

- ♣ The name of the member of staff to whom the disclosure was made
- ♣ Main points from the conversation
- ♣ Agreed next steps

This information should be shared with the mental health lead, Liz Burton, who will offer support and advice about next steps.

See appendix 1 for guidance about making a referral to CAMHS.

Confidentiality

We should be honest with regards to the issue of confidentiality. If we feel it is necessary for us to pass our concerns about a student on then we should discuss with the student and parent:

- ♣ Who we are going to talk to
- ♣ What we are going to tell them
- ♣ Why we need to tell them

We should never share information about a student without first telling them. It is always advisable to share disclosures with a colleague, usually the mental health lead, Liz Burton this helps to safeguard our own emotional wellbeing as we are no longer solely responsible for the student, it ensures continuity of care in our absence, and it provides an extra source of ideas and support. We should explain this to the student and discuss with them who it would be most appropriate and helpful to share this information with.

Parents must always be informed, and students may choose to tell their parents themselves with a member of staff. We should always give students the option of us informing parents for them or with them.

If a child gives us reason to believe that there may be underlying child protection issues, parents should not be informed, in line with our school safeguarding policy.

Working with Parents

Where it is deemed appropriate to inform parents, we need to be sensitive in our approach. Before disclosing to parents, we should consider the following questions (on a case by case basis):

- ♣ Can the meeting happen face to face? This is preferable.
- ♣ Where should the meeting happen? At school, at their home or somewhere neutral?
- ♣ Who should be present? Consider parents, the student, other members of staff.
- ♣ What are the aims of the meeting?

It can be shocking and upsetting for parents to learn of their child's issues and many may respond with anger, fear or upset during the first conversation. We should be accepting of this (within reason) and give the parent time to reflect. We should always highlight further sources of information and give them leaflets to take away where possible as they will often find it hard to take much in whilst coming to terms with the news that you're sharing.

Sharing sources of further support aimed specifically at parents can also be helpful too e.g., parent helplines and forums. We should always provide clear means of contacting

Mental Health and Emotional Wellbeing Policy

us with further questions and consider booking in a follow up meeting or phone call right away as parents often have many questions as they process the information. Finish each meeting with agreed next step and always keep a brief record of the meeting on CPOMS

Working with All Parents

Parents are often very welcoming of support and information from the school about supporting their children's emotional and mental health.

In order to support parents we will:

- ♣ Highlight sources of information and support about common mental health issues on our school website and Facebook page
- ♣ Ensure that all parents are aware of who to talk to, and how to get about this, if they have concerns about their own child or a friend of their child
- ♣ Make our mental health policy easily accessible to parents
- ♣ Keep parents informed about the mental health topics their children are learning about in PSHE and share ideas for extending and exploring this learning at home.
- ♣ Have Mental Health Weeks in school

Supporting Peers

When a student is suffering from mental health issues, it can be a difficult time for their friends. Friends often want to support but do not know how. In the case of self-harm or eating disorders, it is possible that friends may learn unhealthy coping mechanisms from each other. In order to keep peers safe, we will consider on a case by case basis which friends may need additional support. Support will be provided either in one to one or group settings and will be guided by conversations by the student who is suffering and their parents with whom we will discuss:

- ♣ What it is helpful for friends to know and what they should not be told
- ♣ How friends can best support
- ♣ Things friends should avoid doing/saying which may inadvertently cause upset
- ♣ Warning signs that their friend help (e.g., signs of relapse) Additionally, we will want to highlight with peers:
- ♣ Where and how to access support for themselves
- ♣ Safe sources of further information about their friend's condition
- ♣ Healthy ways of coping with the difficult emotions they may be feeling

Training

As a minimum, all staff will receive regular training about recognising and responding to mental health issues as part of their regular child protection training in order to enable them to keep students safe.

Training opportunities for staff who require more in depth knowledge will be considered as part of our performance management process and additional CPD will be supported throughout the year where it becomes appropriate due developing situations with one or more students.

Where the need to do so becomes evident, we will host twilight training sessions for all staff to promote learning or understanding about specific issues related to mental health. Suggestions for individual, group or whole school CPD should be discussed with Liz

Mental Health and Emotional Wellbeing Policy

Ormerod, our CPD Coordinator who can also highlight sources of relevant training and support for individuals as needed.

Staff Support and Well Being

We understand that for staff to be able to support children's' mental health and emotional wellbeing, their own wellbeing is paramount.

As a school, we therefore offer:

- ♣ A Warm, supportive and fun working environment
- ♣ A workplace where there is a clear behaviour framework, which is values led
- ♣ Access to additional support services through schools insurance policy – counselling, physiotherapy etc
- ♣ An open-door policy
- ♣ Opportunities for regular 1 to 1 meetings
- ♣ Wellbeing days
- ♣ Option of PPA time to be taken at home
- ♣ An understanding of commitments outside of school that we, where possible, will support staff to attend, e.g., Children's sports days, Awards assemblies etc
- ♣ EYFS supervision (teachers and support staff)
- ♣ Half termly safeguarding meetings – sharing caseload updates
- ♣ Time off in lieu when attending weekend/residential visits (as appropriate)
