

October Half Term Activities

Home Learning

The first week back we will be learning all about the season Autumn and Halloween. We have lots of lovely activities planned. If you go on any Autumn walks, collect some Autumn treasures to bring into Nursery. Take pictures so the children can tell us all about it.

Next half term we will be working really hard on our counting and number recognition skills. This can be made fun in lots of ways... Try some over the half term:

- Play hide and seek
- Sing number rhymes (5 little monkeys, 5 little ducks etc.)
- Play number snap
- Go for a number walk or go on a shape hunt

The children will also be taking part in phonics activities. Here are some games you can play at home: -

- Eye spy is a good game to help them with initial sounds.
- Busy Things on the tablet has lots of fun phonic games.
- Explore singing songs and adding musical instruments to them.

We wish you a lovely half term; be safe and enjoy lots of family time. We will see you all soon.

Thank you
Mrs Bentham
