

Prepare for A Level History

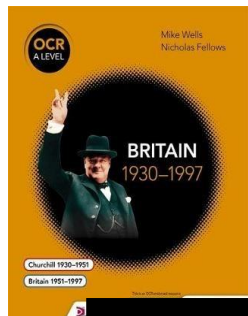

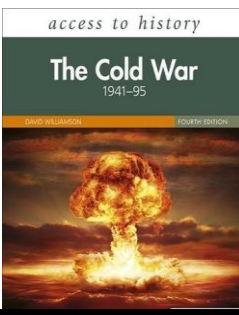

If you are pursuing History at A Level, you will find that the first year is very much about modern politics—something which we have not really studied at GCSE at Devizes. Therefore it is important for you to really place yourself in the period after WW2 where the world had changed into a very different place.

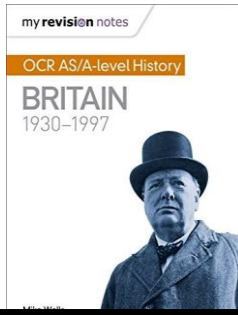

We follow the OCR A Level History and our units are Y113: Britain 1930-1997 and Y223: The Cold War in Europe. The first two books are the A Level textbooks that we would recommend buying so you can highlight key sections and have it as yours for the two years! Also are a couple of historians books we recommend reading but you do not have to buy them.

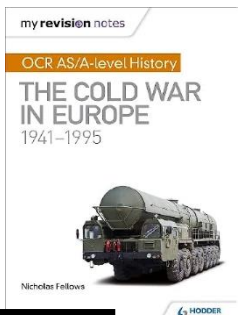

All the best,
The History Team
