An opportunity for young artists 13+ to attend for free the following workshop on a first come first served basis. There are **ten** places on this workshop.

This is a hands-on Pigment Making Workshop, where you'll transform raw earth from Wiltshire, Kent, and Sussex into vibrant handmade watercolour paint. Explore sustainable, traditional techniques as you're guided through the process of purifying pigment, making paint, and creating a unique colour chart. Along the way, you will discover the rich history of natural pigments – from lake to bone to metal – and their ancient origins. Open to young artists, makers, and the curious alike, this immersive session offers a deep connection to place through the magic of natural colour.
