How to use Oxford Owls 'e books'

https://home.oxfordowl.co.uk/

It is free to register. Do this to begin with.

Click on 'browse ebooks'

Click 'browse the ebook library'

Here you will find a green box that is named 'levels'. Select this and then select 'book band'. Select the colour band that your child is on (this way you will be able to choose from all titles). If you and your child are not sure what colour band they are on then do ask the teacher or select one from lower down and work up.

If your child hasn't been reading regularly then they may be a little rusty so do use the audio option – it's not cheating!

Remember, attitude is so important and your child will only want to continue if they are successful. It is much better to start too easy and build up confidence which may be low or delicate at this time. As I would always say, it is vital that reading is fun so let your child help to select the book they'd like to read, and for a while you may just read it to them to get them back into it.

Do let us know how you get on and if we can support you at all.
