

My day at

Bubble School

        
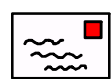

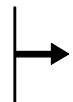

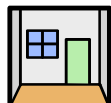

My home grown up will tell me the name of

      
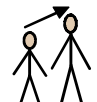

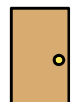

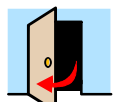

my room. I will be in my room with some other

    
children this will be our bubble.

     
I will get to my bubble by coming through the

       
gate written in my letter from school.

       
I will stand on a marker outside my room with

      
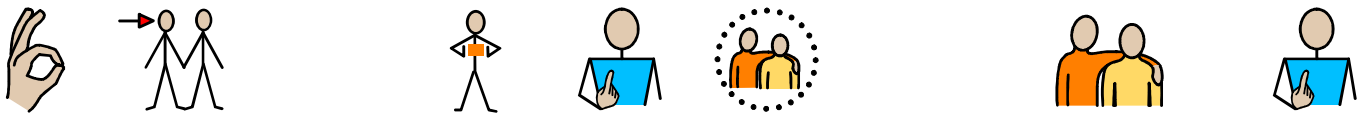

my home grown up until the door opens.

I will meet my school grown up, They might be a

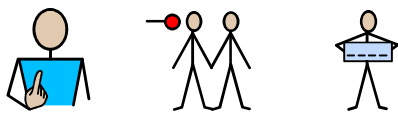

different grown up to what I am used to, This is

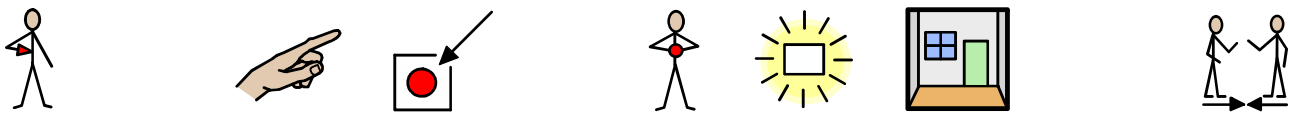

ok they will keep me safe and look after me.

If I have a new school grown up they will tell

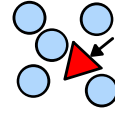

me their name.

I will go in to my new room and meet the

other children who will be in my bubble with me.

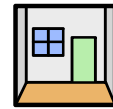

Some things in school will look different to how I

remember it.

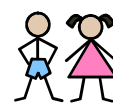

This is ok this is to help keep everyone safe.

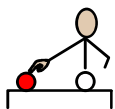

I will have to stay in my bubble room unless

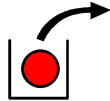

my school grown up tells me to go somewhere else.

I will use the toilet with the other children in my

bubble that is allocated to my room.

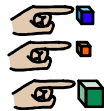

I must stay out of the school office and

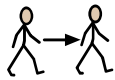

Dr Mitchell's office.

When Dr Mitchell is in school she will come

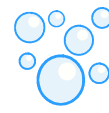

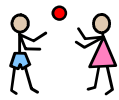

and say hello at each bubble door.

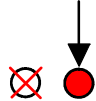

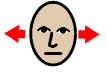

I must follow all the new rules this is

very important to keep everyone safe.

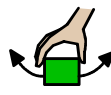

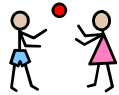

I can play with the children in my bubble, but

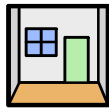

not the children in other bubbles.

This is to keep everyone safe.

I can play with the toys and use the equipment in

my bubble room.

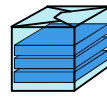

I will not bring any toys or anything else from home

only my water bottle with my name on it. This will

help keep everyone safe.

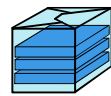

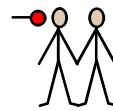

In my bubble I will have my own pack of equipment

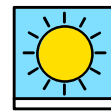

with my name on it to do my learning.

I will not share my equipment with other children

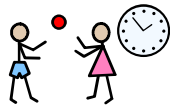

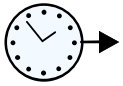

in my bubble. They will all have their own packs.

I will wash my hands lots during the day.

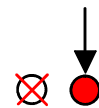

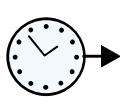

This helps everyone to stay safe.

I will have play time with everyone in my

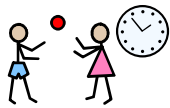

bubble.

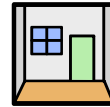

At lunch time i will sit with the other children

in my bubble.

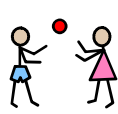

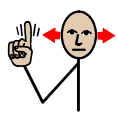

At play time and lunch time I will go to the toilet

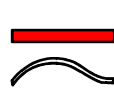

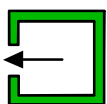

that is allocated for my bubble room.

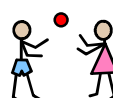

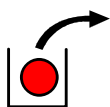

At home time my grown up will collect me.

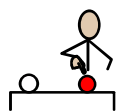

I must not play with toys and equipment on the

way out of school. My grown up will take me straight

out of school without stopping to play.

This will help keep everyone safe.
