

PRIMARY P.E. AND SPORTS PREMIUM IMPACT STATEMENT 2019

Vision for the Primary PE and Sport Premium

ALL pupils leaving primary school **physically literate** and with the **knowledge, skills and motivation** necessary to equip them for a **healthy, active lifestyle** and **lifelong participation** in physical activity and sport

Introduction

The Primary P.E. and Sport Premium funding has been provided to ensure that schools achieve self-sustaining improvement in the quality of PE and sport. The focus of the spending should lead to long lasting impact against the vision (*above*) that will live on well beyond the funding.

At Dowson, we have a well established reputation for good Sports and P.E provision and our participation in competitive events, locally, regionally and even nationally. We are committed to providing children with their full entitlement to physical activity as outlined in the 5 Key Indicators (*seen below*) and to them meeting the National Curriculum expected outcomes.

We invest in a full time Sports Coach, a Dance Coach and a Cheerleading Coach through service level agreements with the LA Sports Development Trust 'Active Tameside'. We offer a wide range of After School Clubs that give the opportunities for the children to be active and access a variety of experiences outside of the P.E. offer during the school day. We also believe in children leading their own active and healthy lifestyles and so afford them some of the leadership in this. We do this through: School Council and Health and Safety Pupil Leadership Teams actively discussing playground development and improvements and ways of increasing activity / improving healthy lifestyles; training pupils to be play leaders and peer supporters in order that they lead the play at lunchtimes, providing children with a variety of games and activities and designing additional initiatives that children can participate in during their recreation time such as our 'run a marathon' where children spend two lunchtimes a week completing laps of cross country route, building up to milestone certificates of 10K, half marathon and eventually full marathon which comes with a pin to display proudly on their tie.

Sustainability

Because of the pupils' education in relation to healthy lifestyles and the training they and support staff receive alongside the Sports Coaches, as well as our well established and maintained links with local community clubs and local Primary and Secondary schools, we think our changes using the SPG are sustainable.

Overview of Dowson Academy's strategies for improving pupils' PE and sport participation and attainment and giving pupils the opportunity to develop a healthy, active lifestyle.

We spend our PE and sport funding using the 5 Key Indicators to improve PE and sport participation and to enable pupils to develop a healthy, active lifestyle:

1. The engagement of all pupils in regular physical activity – kick-starting healthy active lifestyles
2. The profile of PE and sport being raised across the school as a tool for whole school improvement
3. Increased confidence, knowledge and skills of all staff in teaching PE and sport
4. Broader experience of a range of sports and activities offered to all pupils
5. Increased participation in competitive sport

Our rationale for spending the money in this way is in the DfE Vision Statement at the beginning of this document.

"Physical Literacy can be described as the motivation, confidence, physical competence, knowledge and understanding that provides children with the movement foundation for lifelong participation in physical activity. Enabling them to be physically literate supports their development as competent, confident and healthy movers." Primary School Physical Literacy Framework, developed by Youth Sport Trust, Sport England, County Sport Partnership Network, Association of Physical Education and Sports Coach UK.

SCHOOL EXPENDITURE AND IMPACT IN 2018-19

P.E and Sports Premium Funding 2018-19

Amount Received	£19620
------------------------	---------------
