Friday 25th November

Invitation for Parents – ‘Success Beyond School’ from InvestIN

Please see below details of two webinars FOR PARENTS of students aged 12-18 who are interested in a career in finance. The webinars are free-of-charge, live online evening seminars designed to help parents supercharge their children's career potential. Parents can register now for:

[Wednesday 1st Dec: Building a Future in Finance](#)

How your child can break into the finance industry

[Wednesday 8th Dec: Level up with Law](#)

Support your child on their journey to becoming a top lawyer

InvestIN is a UK-based organisation that provides students aged 12-18 with an immersive experience of their dream career. More than 45,000 students from over 100 countries have attended [the programmes](#), which take place both in person around the world and live online. They are currently based in London and Manchester and we offer programmes in London, Manchester, Bristol, Birmingham, Edinburgh, New York, Dubai, Singapore and Hong Kong. **There is a cost for the longer programmes.**

Medic Mentor – FREE Live Virtual ‘Get into Medicine’ Conference (with code)

Aspiring medical students from Years 10/12 are invited to attend the LIVE VIRTUAL ‘Get into Medicine Insight’ & UCAS Application Conference for FREE using the exclusive funding code: Teacher21.

Once students have attended, they will be awarded with a certificate from the Presidents at Medic Mentor to acknowledge that they are a student who has gone one step further than others. The ‘Get into Medicine’ conference is a significant turning point for Medic Mentor students. It will unlock exclusive opportunities such as scholarships and prizes, as well as help you to make a highly competitive application.

We will be looking at:

- What is it like to be a doctor?
- Perspectives from recent successful and Current applicants
- CV Building
- Getting Work Experience
- Medical Personal Statements
- Medical School Interviews
- UCAT & BMAT Exams
- How to access Medical Medical Awards, Prizes, Leadership Programmes, and Scholarships to study Medicine at University.

Upcoming dates: **Saturday 4th December** | **Sunday 5th December** | **Saturday 11th December**

Register for FREE using the coupon code: Teacher21 here: <https://medicmentor.co.uk/medicine-national-healthcare-weekend/>

BAE Systems – Women in Craft Apprenticeships (not local)

Our apprenticeship insight event will introduce you to the exciting world of craft engineering; providing you with the opportunity to learn more about our company, gain hands on experience and visit our sites. You'll also get to meet our current craft engineering apprentices, who will provide insights into their role and share their experience.

Taking place over 4 days throughout January & February 2022, places on the programme are limited.

Following the insight experience, you could be offered a full time position on our Advanced Craft Engineering Apprenticeship, starting in autumn 2022.

Opportunities available at:

Preston | Humberside | Barrow in Furness | Glasgow | Portsmouth | Radway Green

Applicants need to have either achieved five GCSEs 4-9/A*-C or National 4 (or equivalent) including Maths, English and a Science or be on track to achieve five GCSEs 4-9/A*-C or National 4 (or equivalent) including Maths, English and a Science by September 2022

Registration closes 6 December 2021. All applications will be reviewed, and you will receive an outcome decision via email by 17 December 2021.

About Craft Engineering

Our Craft Engineers work in manufacturing environments using tools and machinery to safely carry out a range of tasks on complex products like submarines, surface naval ships, munitions, or aircraft.

We have many different trade disciplines to choose from including fabricator, welder, mechanical fitter, electrician, sheet metal worker, pipeworker, aircraft fitter and machinists.

If I was then offered an Apprenticeship, what would this involve?

Our Craft Engineering apprenticeships generally take three and a half years to complete. You'll usually spend the first year in full-time training; learning core skills, before moving into a site placement within a specialist engineering team.

Switch on your career with us

As an apprentice at BAE Systems, you'll gain valuable work experience, develop skills and be supported in your study towards professional qualifications – all whilst earning a salary.

Our employee networks, your team and your mentors will help you to develop connections and experience a fulfilling career. There are also plenty of opportunities for you to get involved in volunteering, so you'll be encouraged to make a difference outside of work too.
