Super-curricular **Steps to University for Mathematical Students.**
The AMSP is running the Steps to University for Mathematical Students programme again in 2025. This event is for enthusiastic Year 12 female maths students who are considering studying maths or a closely-related subject at university. Non-binary and trans students are most welcome if they feel this is the right space for them.
See post in the AS Maths Team for more information about how to apply.

Language, Power and Culture Programme

This programme provides insight into the teaching of languages and themes of power and culture at the university level, along with tips for making a successful application to Cambridge. **Anyone who registers for this programme will receive access to online academic material, so we strongly recommend students interested in Languages, Literature, History or Politics to sign up.** Selected students will be mentored by undergraduates and will be able to visit Trinity College for an overnight taster programme.
Applications open until 10th February.

Women in Maths - Free Residential Programme Registration Now Open Christ's College and Trinity College are jointly offering a Women in Maths residential programme from 27th to 29th March 2025. This is for women in Year 12 in England and Wales, Year 13 in Northern Ireland, and S5 in Scotland, who are interested in studying a maths related subject.
