Creative iMedia (Cambridge National)

What will I study?

This course is very media sector-focused. This includes film, television, web development, gaming, design and animation, all of which have IT at their heart. This course provides knowledge in a number of key areas in the creative fields - from pre-production skills to digital animation!

Are these skills relevant for sixth form, college and work?

Very much so. The topics have been chosen from industry research showing current shortages of skilled people within the creative media, web design and technical fields. This is a great platform for that industry.

Is this a practical subject?

Very much so. You will use the PCs almost every lesson, as well as mobile devices, cameras and a range of software packages. A real hands-on approach to both teaching and learning.

What topics will I study?

- ➢ R081: Pre-production Skills
- ➢ R082: Creating Digital Graphics
- ➢ R085: Creating a multi-page website
- ➢ R086: Creating Digital Animations

What software will I use?

- ➢ R081: Pre-production Skills – PowerPoint, Word, Publisher & Excel
- ➢ R082: Creating Digital Graphics - Photoshop
- ➢ R085: Creating a multi-page website – SERIF/Rocket Cake
- ➢ R086: Creating Digital Animations – Adobe animate

How will I be assessed?

Exam - Fundamentals of IT 1 ¼ hours (you have two chances to sit the external exam)   25%

Coursework x 3 (25% each)   75%

Is this qualification equivalent to a GCSE?

Yes, this is a technical qualification with the same weighting as a GCSE. With this qualification, you also gain an insight into industry and how to meet a client's need – excellent for future development. Accepted by our Sixth Form, college and beyond.
