

CELEBRATING ACTS OF KINDNESS & GOOD

It feels like a long time ago since things were “normal”, our way of life has changed dramatically and in the most we’ve adapted well. Perhaps the things we previously took for granted... we no longer do, and that in itself is a good thing!

During this global pandemic so many people and professions have gone above and beyond to keep us safe, healthy and functioning. An amazing set of individuals who should be recognised (many of them in your community and in your school!).

SO WITH THAT IN MIND HERE IS YOUR NEXT HOUSE COMPETITION.

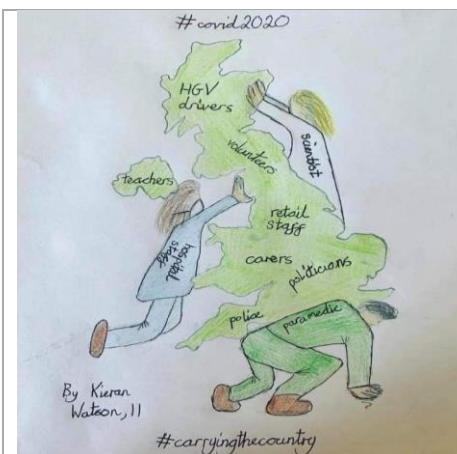

I have seen, read and watched numerous things which celebrate our key workers, individuals and organisations. From artwork to poems and from videos to animations – all of them championing, highlighting and thanking. Your house challenge is to create something which does this too. The rainbow has been a symbol of hope in this crisis, you might want to include it in your work.

Please send entries to me via email @ l.forbes@durhamjohnston.org.uk or Tweet us! For our KS3 students you could add it to our Computing Teams thread, so that your subject teachers can see it too.

Good luck and stay safe

Miss Forbes & The House Team
