

GCSE Latin

What is Latin useful for?

It develops linguistic skills, helping students with English and Modern Foreign Languages, as well as developing their understanding of the ancient world and its links with many aspects of our culture. It will support future study of history and literature and any subject where formal terminology is used – it's also fascinating & a well-respected academic subject.

Do students have to have studied Latin in Year 8 & Year 9 to take the GCSE?

Generally, yes – but anyone who is interested in taking up Latin at any stage should contact Mrs Bothwell. It is never too late!
