

# DJCS Y7 NEWSLETTER TERM1

## ISSUE 1

## YEAR 7

What a whirlwind start to our DJCS career! There have already been some amazing achievements by our year 7 students! From an incredible number of house points given, to undefeated sports teams. There have been members of our cohort who have raised hundreds of pounds for charity, won gold medals for swimming, national league basketball players, county cricketers, regional LEGO champions and even someone who managed to get into police cadets. If you check our weekly bulletin on teams you can keep up to date with all of our shared achievements. Keep your eyes peeled for the first winner of our achievement competition – 'will it make the boat go faster?' To be announced before half term!

We've had excellent participation in many extra-curricular clubs. From drama club, to football, dungeons and dragons to science club we have been operating close to capacity! Whether you are a musician or a sportsperson, or even both – we have something for you, so check the timetable and come along, get involved in our community! The timetable specific to year 7 can be found on the weekly bulletin on Teams. Some responses we've received so far:

'I made an amazing game in Coding class with two of my friends!

'I have went to cross country even though i didn't want to and i turned out to really enjoy it and I'm going every week now.'

'I have been trying my best at the weekly basketball for over a month!'

'I came second in a school rowing competition'

### COMPETITION 1 – Photography

Thank you to all students who entered this competition.  
The winners are –

#### CATEGORY 1 – AWESOME ANIMALS

1<sup>st</sup> Place – 30 HP  
Lottie Gregory 7BH

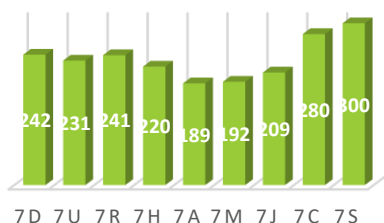

2<sup>nd</sup> Place – 20 HP  
Daniel Wells 7CW

3<sup>rd</sup> Place – 10 HP  
Adam Dale 7CW

### HOUSE POINT TOTALS - HT1

Our boys football team are so far undefeated! They have beaten all challengers so far including an excellent win in the national cup, beating Valley Gardens School 6-3.

Of the biology photograph competition, over half of the winning entries came from year 7, with the following ones taking the first 3 places.

We have enjoyed some great success in the house system so far this year. Some excellent entries to the biology competition, and contributions to our long running competition; 'will it make the boat go faster?'

We have worked well with our sixth form team- Rebecca, Jude, Maya and Aenghus.
