1. Aims

The aims of relationships and sex education (RSE) in our Trust are to:

- Provide a framework in which sensitive discussions can take place
- Prepare pupils for puberty, and give them an understanding of sexual development and the importance of health and hygiene
- Help pupils develop feelings of self-respect, confidence and empathy
- Create a positive culture around issues of sexuality and relationships
- Teach pupils the correct vocabulary to describe themselves and their bodies

The PSHE/SRE curriculum however goes much wider than its lessons and is well embedded within the culture and ethos at Easterside Academy.

The aim of our school is to be a safe, happy, creative and successful school which enhances the life chances of its pupils, and which is an integral part of the life of the local community.

Through PSHE/SRE, we uphold values such as:

- Mutual respect
- Equality of opportunity - Equal values and worth of all
- Shared sense of pride and ownership
- A commitment to continuous improvement

We ensure RSE is inclusive and meets the needs of all our pupils, including those with special educational needs and disabilities (SEND) by providing a differentiated programme, where necessary, to ensure that all pupils gain a full understanding.

2. Statutory requirements

The Department for Education published draft statutory guidance on RSE in Spring 2018, in preparation for the introduction of statutory relationships education (in primary schools) from September 2020.

This policy has been developed in accordance with DfE: SRE guidance 2000. New statutory guidance and regulations have been passed in Parliament and will apply from September 2020. All Primary Schools are required to teach relationships education and it is recommended that primary schools have a programme of sex education.

As a Trust we must provide relationships education to all pupils as per section 34 of the [Children and Social work act 2017](#).

We do not have to follow the National Curriculum but **we are expected** to offer all pupils a curriculum that is similar to the National Curriculum including requirements to teach science which would include the elements of sex education contained in the science curriculum.

In teaching RSE, we are required by our funding agreements to have regard to [guidance](#) issued by the secretary of state as outlined in section 403 of the [Education Act 1996](#).

At The Enquire Learning Trust we teach RSE as set out in this policy.

This policy complies with our funding agreement and articles of association.

3. Policy development

This policy has been developed in consultation with staff, pupils and parents. The consultation and policy development process involved the following steps:

1. Review – a Director pulled together all relevant information including relevant national and local guidance.
2. Staff consultation – all school staff were given the opportunity to look at the policy and make recommendations.
3. Parent/stakeholder consultation – parents and any interested parties were invited to attend a meeting about the policy. (Due to Covid:19, this will be pursued through a virtual platform with parents and carers.)
4. Pupil consultation – we investigated what exactly pupils want from their RSE (Pupil questionnaires as part of termly monitoring).
5. Ratification – once amendments were made, the policy was shared with governors and ratified.

4. Definition

RSE is about the emotional, social and cultural development of pupils, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity.

RSE involves a combination of sharing information, and exploring issues and values.

RSE is not about the promotion of sexual activity.

(We do not teach children about intercourse/sex. This is developed in Secondary school/KS3 according to individual schools' guidance)

In upper KS2, children will learn:

- about the physical and emotional changes that happen when approaching and during puberty (including menstruation, key facts about the menstrual cycle and menstrual wellbeing, erections and wet dreams).
- that people may be attracted to someone emotionally, romantically and sexually; that people may be attracted to someone of the same sex or different sex to them; that gender identity and sexual orientation are different.

- that female genital mutilation (FGM) is against British law, what to do and whom to tell if they think they or someone they know might be at risk.
- Correct names for body parts associated with conception.
- That a baby is made when a sperm (male) meets an egg (female) and then the fertilised egg settles into the lining of the womb (female).

By the end of Key Stage 2, we ensure that children know how babies are born, how children's bodies change during puberty, what menstruation is, and how it affects women. We always teach this with due regard for the emotional development of the children.

5. Curriculum

Our curriculum is set out as per Appendix 1 but we may need to adapt it as and when necessary. Appendix 1 shows the School's PSHE Curriculum with the strands:

CORE THEME 1: HEALTH AND WELLBEING

CORE THEME 2: RELATIONSHIPS

CORE THEME 3: LIVING IN THE WIDER WORLD

We have developed the curriculum in consultation with parents, pupils and staff, taking into account the age, needs and feelings of pupils.

Dealing with difficult questions

Teachers will endeavour to answer questions as honestly as possible, but if faced with a question that is outside the scope of this policy or the realm of a Teacher/ child relationship, provision would be made to meet the individual child's needs with their parents/carers so that children are fully informed and don't seek answers online.

Primary sex education will focus on:

- Preparing boys and girls for the changes that adolescence brings.
- How a baby is conceived and born.

For more information about our curriculum, see our curriculum map in Appendix 1.

We deliver this learning through science, specific SRE, general PSHE lessons and also through circle time discussions which may occur as part of **THRIVE sessions**.

Thrive is a personalised approach to children's social and emotional development to provide the tools, skills and insights needed to help children to become more emotionally resilient.

6. Delivery of RSE.

RSE is taught within the personal, social, health and economic (PSHE) education curriculum. Biological aspects of RSE are taught within the science curriculum, and other aspects are included in religious education (RE).

Pupils also receive stand-alone sex education sessions usually delivered by a trained health professional.

Relationships education focuses on teaching the fundamental building blocks and characteristics of positive relationships including:

- Families and people who care for me
- Caring friendships
- Respectful relationships
- Online relationships
- Being safe

For more information about our RSE curriculum, see Appendices 1 and 2.

These areas of learning are taught within the context of family life taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

SRE is delivered by engaging, age appropriate and well thought out lessons that will be taught with the needs of the children as a central focus. Lessons will use a range of strategies and resources. Activities may include: practical activities, quizzes, collaborative thinking tasks, responding to scenarios, hot seating, card sort (diamond 9), written tasks, learning clips and puzzles.

Science Curriculum

Early Years children learn about life cycles. Through on-going personal, social and emotional development they develop the skills to form relationships and think about relationships with others.

In Key Stage 1, through Science, children learn to:

- ❖ Identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.

In Key Stage 2, through Science, children learn to:

- ❖ Notice that animals, including humans, have offspring which grow into adults.
- ❖ Recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents.
- ❖ That the life processes common to humans and other animals including nutrition, growth and reproduction.
- ❖ About the main stages of the human life cycle.

In Year 5 we place a particular emphasis on RSE, as many children experience puberty at this age. We teach the children about the parts of the body and how they work. We also explain what will happen to their bodies during puberty. We encourage the children to ask for

help if they need it. Teachers do their best to answer all questions with sensitivity and care. By the end of Key Stage 2, we ensure that both boys and girls know how babies are born, how their bodies change during puberty, what menstruation is, and how it affects women. We always teach these with due regard for the emotional development of the children.

7. Roles and responsibilities

7.1 The Board of Trustees

The Trustees will approve the RSE policy, and hold the Principal to account for its implementation.

7.2 The Principal

The Principal is responsible for ensuring that RSE is taught consistently across the academy, and for managing requests to withdraw pupils from non-statutory/non-science components of RSE (see section 8).

7.3 Staff

Staff are responsible for:

- Delivering RSE in a sensitive way
- Modelling positive attitudes to RSE
- Monitoring progress
- Responding to the needs of individual pupils
- Responding appropriately to pupils whose parents wish them to be withdrawn from the non-statutory/non-science components of RSE

Staff do not have the right to opt out of teaching RSE. Staff who have concerns about teaching RSE are encouraged to discuss this with the Principal.

- ❖ The RSE programme will be led by the PSHE Lead - Miss K.Weetman.
- ❖ It will be taught by Teachers and TA's across school, and including the Care Team.
- ❖ It will be supported by resources from the PSHE Association, recommended websites, government recommendations and external visitors where appropriate.
- ❖ A working party will be made up of members of staff from The Care Team/Well Being, PSHE Leader, PE leader, RE Leader and Thrive Practitioners.
- ❖ Teaching staff have received SRE training.

7.4 Pupils

Pupils are expected to engage fully in RSE and, when discussing issues related to RSE, treat others with respect and sensitivity.

8. Parents' right to withdraw

Parents do not have the right to withdraw their children from relationships education.

Parents have the right to withdraw their children from the non-statutory/non-science components of sex education within RSE.

Requests for withdrawal should be made to the Principal in person, by email or telephone call to the school.

Alternative work will be given to pupils who are withdrawn from sex education.

9. Training

Staff are trained on the delivery of RSE as part of their induction and it is included in our continuing professional development calendar.

The Principal will also invite visitors from outside the academy, such as school nurses or sexual health professionals, to provide support and training to staff teaching RSE.

10. Monitoring arrangements

The delivery of RSE is monitored by the Principal through: enquiries, lesson observations and pupils work.

Pupils' development in RSE is monitored by class teachers as part of our internal assessment systems.

This policy will be reviewed by the Board of Trustees annually.

Easterside Academy PSHE Long Term Plan

Our aim is for all children to develop into independent, confident, successful learners with high aspirations, who are resilient and know how to make a positive contribution to their own community and wider society through our enquiry based curriculum.

This long-term plan is structured around an overarching 'enquiry question' for each half-term or term. These begin in key stage 1 as 'What?' and 'Who?' questions and build throughout Key Stage 2 into 'Why?' and 'How?' questions.

The **three core themes** from the Programme of Study are fully covered - colour-coding highlights whether the overall topic focus is Health and Wellbeing, Relationships or Living in the Wider World, although some half term blocks will draw on more than one core theme.

Core Themes:

CORE THEME 1: HEALTH AND WELLBEING

CORE THEME 2: RELATIONSHIPS

CORE THEME 3: LIVING IN THE WIDER WORLD

Teaching builds according to the age and needs of the pupils throughout the primary phase with suggested developmentally appropriate learning objectives given to respond to each key question.

**12. Appendix 2: By the end of primary school pupils should know
(DfE: SRE)**

TOPIC	PUPILS SHOULD KNOW
Families and people who care about me	<ul style="list-style-type: none"> • That families are important for children growing up because they can give love, security and stability • The characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other’s lives • That others’ families, either in the academy or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children’s families are also characterised by love and care • That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children’s security as they grow up • That marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong • How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed
Caring friendships	<ul style="list-style-type: none"> • How important friendships are in making us feel happy and secure, and how people choose and make friends • The characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties • That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded • That most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right • How to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed

TOPIC	PUPILS SHOULD KNOW
Respectful relationships	<ul style="list-style-type: none"> • The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs • Practical steps they can take in a range of different contexts to improve or support respectful relationships • The conventions of courtesy and manners • The importance of self-respect and how this links to their own happiness • That in the academy and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority • About different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help • What a stereotype is, and how stereotypes can be unfair, negative or destructive • The importance of permission-seeking and giving in relationships with friends, peers and adults
Online relationships	<ul style="list-style-type: none"> • That people sometimes behave differently online, including by pretending to be someone they are not • That the same principles apply to online relationships as to face-to face relationships, including the importance of respect for others online including when we are anonymous • The rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them • How to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met • How information and data is shared and used online

TOPIC	PUPILS SHOULD KNOW
Being safe	<ul style="list-style-type: none"> • What sorts of boundaries are appropriate in friendships with peers and others (including in a digital context) • About the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe • That each person’s body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact • How to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know • How to recognise and report feelings of being unsafe or feeling bad about any adult • How to ask for advice or help for themselves or others, and to keep trying until they are heard • How to report concerns or abuse, and the vocabulary and confidence needed to do so • Where to get advice e.g. family, academy and/or other sources

13. Review of this Policy

Trustees to review this policy every 3 years. It may however review this policy earlier than this if the government produces new regulations, or if it receives recommendations on how this policy might be improved
