Enquiry Question:

Year 3/4 Potions

Are potions real?

Create a poem, rap or song about a potion and its effects on you or people around you.

Write a recipe or instructions for making a potion. If you would like, with the help of an adult, make your potion and take a photograph to share with the class.

Design a bottle for your potion to go in. It could have a unique (original) shape or labelling. Try and make it as eye-catching as possible.

You can email pictures to: contact@eastersideacademy.co.uk

Use a range of materials from home to create your own amazing model of a potion bottle. Can you write a short description to go with it?

Use Google to look up some potions and create an information poster or leaflet to show what you've found out.

Write a short story about either an adventure for Alice to go on when she leaves Wonderland, or you can be the main character. It could be based around the Easterside area. Imagine the different potions / magic you could include in your narrative (story)? What characters would you meet? How could the story end?

Research the history of medicines/potions. Who is a significant figure in the world of potions/medicines? What did they create?

Can you create a poster advertising a potion you have invented yourself? Remember to make the poster eye-catching so the public / target audience want to buy it. Just ask your teacher if you need any more advice.

Information for children and parents

Well done on starting your Project Homework!

Over the next half term your task is to complete as many of these 'Potion' inspired homework activities as possible. Once you have completed a homework activity, please bring it into school, clearly labelled with your name, to share with your classmates and teacher. Thank you and good luck!
