

### KS1 Homework Project Activities

Can you learn the names of all the planets in our Solar System?

Can you make up your own space song or rhyme? Teach the song to your class and perform it as a space choir!

Use an app to find constellations, planets and stars in the night sky. Which constellation is the easiest to recognise? Which star is the brightest?

Make a telescope from junk cardboard materials and sticky tape. Just before bedtime, use your telescope to look up at the stars. Can you see any wonderful star patterns in the sky? Grab a piece of paper and draw the pattern of stars that you spotted. Take the pattern into school to share with the class.

With an adult, search the web for fascinating space facts and make your very own Space Fact Book.

Visit your local library and search for space-themed books. Read and talk with an adult about the books you find.

Ask an adult to help you find the names of all the people who have walked on the Moon.

With an adult, explore the Hubble Telescope website. Check out those amazing gallery images!

Imagine you're an astronaut completing different space missions and make a mini book about your work.
