SCHOOL WEBSITE

Class Blogs

Did you know that each class has their own blog on the school website? Here you can see the learning your child has been doing from Fledglings right through until they finish school in Year 6. The blogs are named as 'Class of 20XX' with the XX being the year they finish primary school. Blogs can be found under the parent tab on the school website.

OTHER SCHOOL NEWS/NOTICES

Mobile Phones in School

We would like to remind children and parents that whilst we allow children to bring their mobile phone to school, particularly if they walk to and from school on their own, all phones must be handed to their class teacher as soon as they arrive at school. These are then returned to the children when they leave school at the end of the day. Thank you for your support.

Changes to the School Menu

Please be advised that due to supply issues Whole School Meals will not longer be serving chicken thighs, these will be replaced with roast turkey. Thank you for your understanding.

PE Kit

Please can we ask that children remember to bring their PE Kit to school on PE Days. Alternatively you may prefer to keep their kit in school during the week and let them bring it home on a Friday for washing.

SPONSOR NEEDED

Do you own your own business? Would you be interested in becoming a sponsor?

We are looking for someone to sponsor an away kit for our school football team that we would also use for other sporting events that the children could wear when representing the school. The shirt would include your business logo or name. If you are interested please let us know - thank you.

INTERNET/ONLINE SAFETY SECTION

Whilst we may be aware of the dangers of internet use there are many positives. Over the coming weeks we will be including information about particular areas your child may be interested in and positive avenues to explore to support this if they enjoy spending time online.

The Sports Fan

Video games are usually seen as reducing the time young people spend exercising. However, there is a genre that encourages physical activity: from music-based games that get users up and dancing, to sports simulators where the controller becomes a tennis racket! Devices' ability to track movement in real time and translate it into a game can make physical activity less of a chore.
