HEALTH ADVICE/ONLINE SAFETY SECTION

YouTube Kids

YouTube Kids is an alternative version to YouTube offering easy to navigate and colourful content suitable for children. Although YouTube Kids is aimed at children, obviously there are still safety precautions that need to be taken to keep your child as safe as possible whilst online and using the App.

Once YouTube Kids has been downloaded it then needs to be connected to your own YouTube account. You can then set your child's date of birth and type of videos you would like them to have access to. You also have the option to approve content before your child is able to access this.
