Other News

News Stories and Current Affairs for Children Aged 7-11years

KMTV, in collaboration with the University of Kent, have developed a YouTube news channel specifically aimed at children in KS2. The news channel helps children and families to engage in local stories, current events and community topics in an accessible and age appropriate way. Whilst children under 13 wouldn't have access to YouTube, this may be helpful for parents to view and, if felt appropriate, share content to help answer or explain current events to their child/children.
