INTERNET/ONLINE SAFETY SECTION

DISCORD

Discord is a free app which allows users to communicate in real time via text, video or voice chat. Available on desktop and mobile devices, it was originally designed to help gamers communicate. **Discord has an age rating of 13+** and is organised around closed groups, referred to as 'servers'. To join a server users must be invited. It's a space for users to interact with friends but also a place where young people can be exposed to risks if the right precautions aren't taken.

Advice for parents

- Do not allow children under 13 to use Discord
- Review safety settings on Discord and set who can message or send friends requests
- Monitor online activity
- Be aware that although Discord requires users to be at least 13 many 'servers' are aimed at older users.

A parents guide to discord can be found by visiting; <https://discord.com/blog/parents-guide-to-discord>
