INTERNET/ONLINE SAFETY SECTION

FIFA 23

FIFA 23 has recently been released, this will be the last edition of the FIFA franchise. The most common concerns with FIFA is the in-game purchases, on-line chat facility and 'just one more game' mentality.

Ways to help;

Ensure their account isn't linked to your payment method, turn off voice chat and allow cross-party chat in settings means your child can only speak to people who are already their friends, set daily time limits in the parental controls of their device settings.
