8th May 2026

Dear Parents and Carers,

As part of helping children to stay safe I would like to remind families of the importance of supervision in the Gun Park and community before and after school.

There have been reports that children are being unkind to each other, both physically and verbally, and not showing our school values of respect and kindness. It has been reported that they are not supervised by family or carers. Please can I ask that you supervise your children in the park and model kind play and interactions.

Supervision in the Gun Park and local community is also important to safeguard the children. It ensures positive interactions with our community as well as teaching children about 'stranger danger'. Important discussions you can have with your child include never going anywhere with someone they do not know, no accepting gifts from strangers and if they are worried, they should go and seek a trusted adult.

Our school vision is to love one another, and I ask for your help in teaching that beyond the school day and teaching them how to stay safe in the community.

Kind regards,

A handwritten signature in black ink that reads "SMOSS".
