My Name Is: Liam   Age: 11 years

I think I would be a good Digital Leader because I use computers every day; and I can sort out some/most problems to do with computers.

<u>Hobbies</u>

I like to draw,

Tell jokes,

and have a great time.

My main interests of being a Digital Leader are to teach people how to use computers safely and block inappropriate material to make people feel safe with technology, and if that doesn't work than I will tell them to download a software that automatically blocks inappropriate content; there are many software like this and are easy to download and doesn't ask for too much information.
