

ENGLISH

Coming to England

The children will begin to group related ideas into paragraphs; build a varied and rich vocabulary base and use prepositions to express time, place and cause.

MATHS

Throughout Autumn 1, we will explore place value and addition and subtraction building on their knowledge from KS1.

SCIENCE

Animals including Humans

The children will explore the importance of nutrition, identify the roles of skeletons and muscles, and learn how humans and animals move and grow. Furthermore, the pupils will investigate how different animals meet their dietary needs and how body structures support function and movement.

HISTORY

Stone Age to Iron Age

children will explore how life in Britain changed from the Stone Age through to the Iron Age. They will learn about early settlements, farming, tools, homes, and religious beliefs, gaining an understanding of how these shaped society over time.

YEAR 3

AUTUMN ONE TRIBAL TALES

PSHE

Family and Relationships

We will explore the importance of families, friendships, and respectful relationships. They will learn how to communicate effectively, resolve conflicts, and understand the value of diversity and empathy in building healthy relationships.

MUSIC

Stone Age

GEOGRAPHY

Land use

Children will investigate how land is used in the UK and around the world, including types of farming, urban and rural development, and natural resources. They will explore how land use changes over time and how it affects people and the environment.

ART

Drawing

Inspired by the prehistoric cave paintings of Lascaux, children will explore early human art forms. They will experiment with natural materials, texture, and techniques to recreate their own cave-style artwork, understanding how art can tell stories from the past.

RE

Judaism

The children will learn about key aspects of Judaism, including beliefs, festivals such as Shabbat and Hanukkah, and the significance of the Torah. They will develop an understanding of Jewish practices and how faith shapes daily life.

PE

Invasion Games

ENGLISH

The Winter's Child

The children will develop upon their mastery keys from Autumn One to write a fantasy story.

HISTORY

Stone Age to Iron Age continued...

Children will explore how life in Britain changed from the Stone Age through to the Iron Age. They will learn about early settlements, farming, tools, homes, and religious beliefs, gaining an understanding of how these shaped society over time.

PSHE

Health and Wellbeing

This unit helps children understand how to take care of their physical and mental health. Using the Kapow scheme, pupils will learn about healthy lifestyles, managing emotions, and making informed choices, supporting their overall wellbeing and resilience.

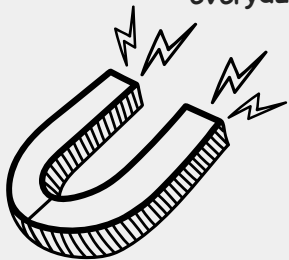

MATHS

Throughout Autumn two, we will explore in depth all about multiplication and division.

SCIENCE

Forces and Magnets

Through hands-on investigations and interactive lessons from Developing Experts, children will explore how objects move on different surfaces and discover the effects of magnetic forces. They will learn about attraction and repulsion, magnetic materials, and the practical uses of magnets in everyday life.

YEAR 3 AUTUMN TWO THE IRON MAN

PSHE

Health and Wellbeing

This unit helps children understand how to take care of their physical and mental health. Using the Kapow scheme, pupils will learn about healthy lifestyles, managing emotions, and making informed choices, supporting their overall wellbeing and resilience.

PE

Dance

In this unit, children will explore movement and expression through dance. They will learn to perform basic dance actions, develop sequences in response to music or themes, and work collaboratively to create and perform short routines with control and rhythm.

SPANISH

My Body

Children will learn to name parts of the body in Spanish and describe simple physical features. Through songs, games, and interactive activities, they will practise listening, speaking, and responding in Spanish, building their confidence with basic vocabulary and sentence structures.

MUSIC

Christmas singing

ENGLISH

Fossil Girl

The children will develop key writing skills through the inspiring true story of Mary Anning. They will explore narrative writing, use rich vocabulary, and practise sentence structure while learning to write biographies and diary entries with a historical focus.

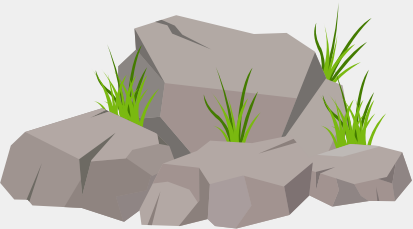

MATHS

Throughout Spring One, the children will be exploring all about measurement; specifically looking at length, volume and mass.

SCIENCE

Rocks

Children will investigate different types of rocks, including how they are formed and their properties. Using Developing Experts, they will learn how fossils are created and how soil is formed, developing their skills in observation, comparison, and scientific recording.

HISTORY

Local History

In this unit, children will explore the rich local history of Knutsford, examining how the town has changed over time. They will learn about significant local figures, buildings, and events, and develop their historical enquiry skills through maps, photographs, and first-hand sources.

YEAR 3

SPRING ONE LOCAL HISTORY

PSHE

Safety and Changing Body

In this unit, children will learn how to keep themselves safe both online and in the real world. They will explore the changes that happen as they grow, understand the importance of personal boundaries, and learn how to make safe and healthy choices with confidence and responsibility.

MUSIC

Recorders

GEOGRAPHY

Europe

Children will investigate the physical and human geography of Europe, exploring its varied climates, mountain ranges, rivers, and population centres.

They will develop map skills and gain an understanding of cultural and environmental diversity across different European countries.

ART

Printing

Inspired by the pop art of Andy Warhol, children will explore the technique of printing using bright colours, repeated patterns, and iconic imagery. They will create their own prints, learning about contrast, composition, and the impact of modern art in visual culture.

RE

Sikhism

Children will explore the key beliefs, values, and practices of Sikhism, including the importance of the Guru Granth Sahib, the significance of the Gurdwara, and the core principles of equality and service. They will develop respect and understanding of how Sikh faith is expressed in daily life.

ENGLISH

The Big Blue Whale

The children will explore non-fiction writing by learning fascinating facts about blue whales. They will develop skills in report writing, sentence structure, and using technical vocabulary to create engaging, informative texts.

MATHS

Throughout Spring Two, we will explore money, time and statistics.

SCIENCE

Light

Children will investigate how light travels, how we see objects, and how shadows are formed. Through hands-on experiments using Developing Experts, they will explore the properties of light, understand reflection and transparency, and learn how to stay safe in the sun.

HISTORY

Local History

In this unit, children will explore the rich local history of Knutsford, examining how the town has changed over time. They will learn about significant local figures, buildings, and events, and develop their historical enquiry skills through maps, photographs, and first-hand sources.

YEAR 3

SPRING TWO EUROPE

PSHE

Citizenship

This unit helps children understand the roles they play in their communities and the wider world. Through discussions and activities from the Kapow scheme, they will explore democracy, rules, responsibilities, and how to contribute positively to society.

GEOGRAPHY

Spain

Children will learn about the geography of Spain, including its climate, physical features, and key cities. They will compare Spanish and UK regions, explore cultural traditions, and use maps and atlases to develop their understanding of European geography.

ART

Collage

Inspired by the work of Spanish architect and artist Antoni Gaudí, children will create textured collages using mosaic-style patterns and natural forms. They will develop techniques in layering and composition while learning about Gaudí's artistic legacy in Barcelona.

RE

Christianity

Children will explore key Christian beliefs, symbols, and practices, including the life and teachings of Jesus, Christian festivals, and the importance of the Bible. They will reflect on how faith influences the lives of believers and contributes to moral decision-making.

MUSIC

ENGLISH

Amazing Rivers

Using the text Amazing Rivers, children will be immersed in a rich non-fiction journey exploring the world's most fascinating rivers. They will develop key writing skills such as note-taking, paragraphing, and using technical vocabulary to create informative and engaging reports

HISTORY

Ancient Egypt

In this unit, children will travel back in time to explore the wonders of Ancient Egypt. They will learn about daily life, pharaohs, pyramids, mummification, and religious beliefs, using artefacts and historical sources to deepen their understanding of this fascinating civilisation.

GEOGRAPHY

Rivers

Children will learn about the features of rivers, from source to mouth, and understand how rivers shape the landscape. They will study the water cycle, key river terminology, and use maps and diagrams to explore major rivers both in the UK and around the world.

MATHS

Fractions

SCIENCE

Plants

Children will investigate the different parts of plants and their functions, explore what plants need to grow well, and examine how water is transported within them. They will also learn about the life cycle of flowering plants, including pollination, seed formation, and dispersal.

YEAR 3 SUMMER ONE RIVERS

DT

Textiles

In this unit, children will design and make a textile product using joining techniques such as sewing. They will explore different fabrics, create templates, and evaluate their final piece, developing both creativity and fine motor skills.

PSHE

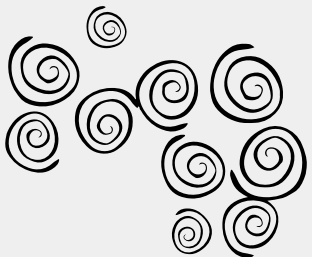

Citizenship

This unit helps children understand the roles they play in their communities and the wider world. Through discussions and activities from the Kapow scheme, they will explore democracy, rules, responsibilities, and how to contribute positively to society.

PE

Athletics/Swimming

Children will develop key athletic skills including running, jumping, and throwing with control, accuracy, and increasing stamina. They will take part in a variety of track and field events, learning how to improve their performance through technique, practise, and perseverance.

YEAR 3

SUMMER TWO PLANTS

PSHE

Economic Wellbeing

Children will learn about money, how it is earned, spent, and saved, and the role it plays in everyday life. Through interactive lessons, they will explore needs vs. wants, budgeting, and making informed choices, helping them build financial awareness and responsibility.

GEOGRAPHY

Biomes

Children will learn about the Earth's major biomes, including deserts, rainforests, tundra, and grasslands. They will explore how climate, vegetation, and animal life vary across these regions, and how human activity can impact fragile ecosystems.

RE

Humanism

Children will explore Humanism as a worldview that values reason, empathy, and human experience over religious belief. They will consider how Humanists make moral choices, celebrate life events, and promote fairness and responsibility in society.

ART

Painting

Inspired by the work of Georgia O'Keeffe, children will explore painting techniques focusing on colour blending, shading, and detail. They will create bold, close-up studies of natural forms such as flowers and landscapes, experimenting with tone and composition.

MUSIC

Spanish Music
