Taken from the Childnet website:  
'What we do

Childnet's mission is to work with others to help make the internet a great and safe place for children

Childnet works directly with children and young people from the ages of 3-18, as well as parents, carers, teachers and professionals, finding out about their real experiences online and the positive things they are doing.

Working directly with these audiences is important in helping us to equip them to stay safe online and informs the resources that we develop for them.

The conversations that we have with them also helps to inform how we develop and respond to policy issues – and the messages that we take to government and the internet industry about the real experiences of children and young people and what needs to be done to make them safer.

At the heart of all our work is the belief that when used properly the internet is a wonderfully positive tool for children and young people.

We strive to take a balanced approach, making sure that we promote the positive opportunities, as well as responding to the risks and equipping children and young people to deal with them.'

★ **Project Evolve** - [projectevolve.co.uk](http://projectevolve.co.uk)

'What is ProjectEVOLVE?

ProjectEVOLVE resources each of the 330 statements from UK Council for Internet Safety's (UKCIS) framework "Education for a Connected World" with perspectives; research; activities; outcomes; supporting resources and professional development materials.

This vast library of content is managed by an innovative new engine, designed by the brilliant SWGfL Webteam, that not only makes navigating the content intuitive but allows users to personalise the content they collate.

Just need a research summary on a topic? What about a lesson plan with stimulus questions? How about activities for pupils and students? Professional development materials for your staff at the press of a button or screen tap. It has been designed with customisation and flexibility at its heart.

The vibrant new content has been written by a team of experts here at the UK Safer Internet Centre. It's up to date; relevant and engaging and moves online life education into the third decade of the 21st century.

ProjectEVOLVE is a free digital literacy toolkit that supports online development in children and young people. It assists professionals in educating, guiding, and supporting them through their use of technology in their online life. The toolkit covers

over 600 separate resources that cover various topics and age ranges from very young children, right up to 18. It establishes some of the fundamental building blocks around the right sort of education needed for their online development and wellbeing.
