

# Help Guide

## Elliston Home learning iPad

To turn on the iPad, press and hold the power button near the back camera until the apple logo appears.

The first thing you will need to do is connect the iPad to your home WI-FI

1. Click the settings app on the iPad

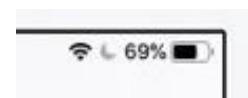

2. Click on the Wi-Fi section on the left hand side

3. Find your home WI-FI in the list and connect with your WI-FI password.

(When connected this icon will show in the top right)

4. You will now be able to use the internet and connect to **Microsoft Teams**.

(Follow the help guide for Microsoft teams to access your child's home learning)
