

Maths Challenges

Foundation Stage

Go on a shape hunt around your home and garden.

How many different shapes can you find? Draw each one.

Can you use them to make a picture?

Key Stage 1

I have 20 apples. Some are red and some are green. I have more red apples than green.

How many could be red? How many could be green?

Lower Key Stage 2

I have £1.38 in my purse. How many different ways could I make this total using different coins?

Upper Key Stage 2

Can you find any mathematical words where the letters in the word are in alphabetical order?

Forty is one of these words.

How many different words can you find?
