

# Linkage Sensory Library Catalogue

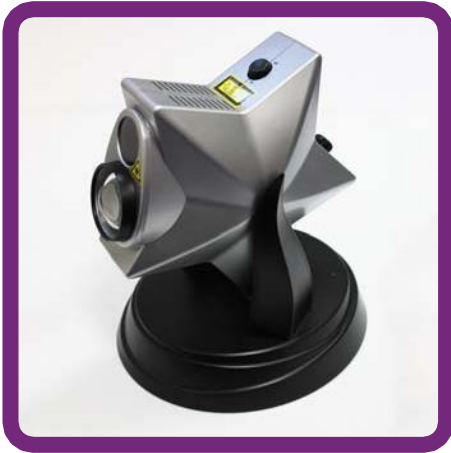

This is a list of the items in the library that you are able to borrow. This is a free service and allows a loan period of 6 weeks from drop off. We ask that at the end of the 6 weeks loan, you complete an evaluation form (we can provide it via email or as a paper copy). This information becomes part of our reporting to the National Lottery who kindly fund this project. The information we give them does not identify anyone.

Because Sensory equipment can be expensive, many of the people who have borrowed from the library have found it really useful to be able to try things out to see if they work for them rather than risk wasting money on something that might not work. You are welcome to borrow more than once, so that you can try a range of things to find out what is effective for you or the person you care for.

We will arrange drop off and collection of the items at a place that is suitable for you- be this a school, care setting or private address. We ask that no more than 5 items are requested at the same time, this enables there to be plenty of stock for others wishing to use this service.

Many thanks for coming to use our library service!

## Projectors and lights

### Star twilight laser projector

The Laser Twilight projects the nights sky on to your chosen surface. It can promote a calm and relaxing environment.

### Aurora projector nightlight

This light projector throws vibrant coloured lights on to surfaces, simulating the effect of the northern lights

### Space laser projector

Flood any space with thousands of stars using new green laser and holographic technology and two precision glass lenses that fill any space with sharp green laser pin points becoming a spectacle of animated stars and deep blue gas clouds

## Ocean wave projector

This projector lights up the room with beautiful colours, resembling the waves of the ocean, with speakers that can be connected to a phone or tablet.

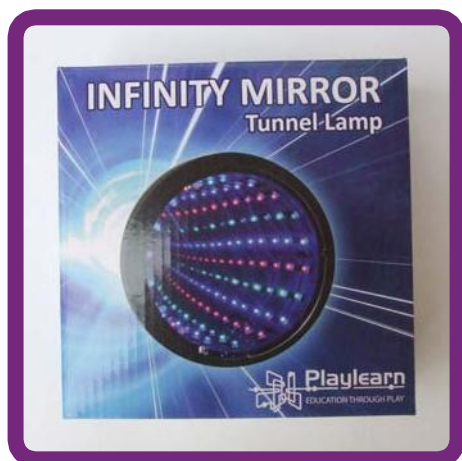

## Night time turtle

Transforms any room into a starry night sky.

## Fibre optic light string

These beautiful lights can stimulate and hold attention and are safe to touch. We have multicoloured and white and are 1.5m in length.

## Infinity Mirror

A mirror that gives the effect of lights going on forever. Available in different shapes and sizes.

## A3 light panel

A large light up panel which can change colour, record and play sounds. Put transparent items on the panel and see the light pass through them.

## Aduki Glow Pebble

Glow pebbles change colour, starting from blue, through violets and pinks. Ending at deep red. Great for creating a soothing atmosphere.

## Triangle Mood Light

A triangular shaped mood light, which changes colour.

## Lumaform Light Cube

Large light up cube, strong enough to be used as a seat, and the colour settings can be customised to your requirements.

## Bubble tub

This colour changing bubble tube can bring relaxation and stimulation into a room.

## Prisma light

A kaleidoscopic light show.

## Fibre optic ice lamp

Soothing bright colour changing LEDs mood light

## Lulaby star cube

This little cube projects colour changing stars on your ceiling and offers a range of lullabies and nature sounds to soothe restlessness and help with sleep.

## Plasma ball

Watch miniature bolts of lightning surge to your touch with the Plasma Ball.

## Light Tube LED

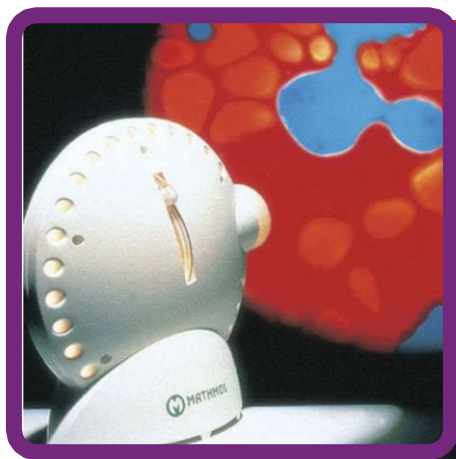

Tall Standing Tube with Remote.

## LED cube

Available in small and medium with remote.

## Mathmos space projector

The Mathmos Space Projector projects a constantly changing lava lamp image onto walls or ceilings of up to 13ft / 4m.

## Vibration and Movement

### Vibrating Shaped Cushion

This cushion can create a calming or stimulating vibration. Comfortable to sit on, and safe to hold. Other shapes, sizes and colours are available.

### Vibrating Snake

The vibrating snake is a flexible, tactile item which can be wrapped around the user. To provide soothing massage for aching muscles. Comes with a washable knitted cover.

### Physio Ball

Physio balls are available in a variety of shapes, sizes and colours.

## Hokki stools

These stools are designed to allow natural movement and have been proven to aid concentration during lessons.

## Movin' Sit Junior

This soft angled seat 'wedge' helps with posture, and can aid those who fidget.

## Wobble cushion

The wobble effect makes sensory seeking children focus on how they sit, reducing fidgeting and helping to improve focus on the task in hand.

## Sound

### **Soothing Sound Dial**

The Soothing Sounds Dial offers a choice of twelve realistic nature sounds and ambient compositions

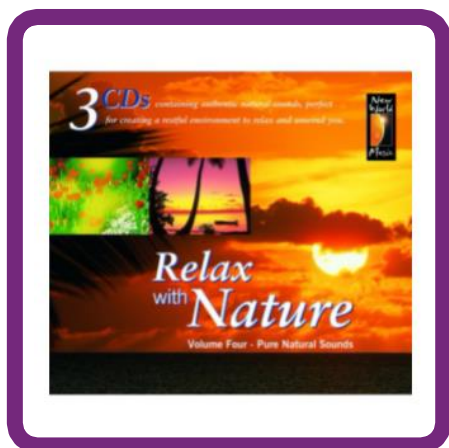

### **Musical instruments**

A selection of musical instruments to explore sound.

### **Musical playmat**

Enjoy a musical activity along with physical growth

## Relax with nature CD

Listen to soothing nature sounds using a CD player.

## Weighted blankets

### Weighted Blankets

Weighted blankets are for those who fidget, or who find heavier blankets comforting. We stock weights: 1.3kg, 1.8kg, 2.2kg, 2.5kg, 3kg, 3.6kg, 4.5kg, 6kg, 7kg, 8kg. The blanket should be around 10% of body weight and no more than 15%.

### Weighted Animals

We have various types of animals for example: Dog, cat, rabbit, teddy, snake, lizard.

### Weighted Lap pad

We have various clip on fidgets to attach to the blanket.

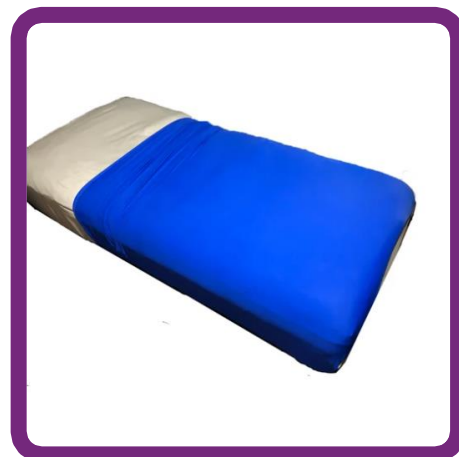

## Bear Hug

Bear Hugs- Small, Medium, Large, Extra Large. These wrap around the body like a waistcoat to provide that feeling of being hugged. Their aim is to reduce anxiety.

## Body Sox

Made of a stretchy translucent material and a child can climb inside and it encourages exploration of balance, co-ordination and body boundaries. They are available in medium, large and XL

## Compression sheet

Made for a Single Bed, these are wrapped under the mattress and then over the child to give that feeling of being grounded.

## Smell

### Tisserand Cold Air Diffuser

Create a relaxing atmosphere with the use of aromatherapy. The Tisserand diffuser uses essential oils, without the potential danger of heated traditional oil burners

## Spaces

### Dark Den with poles

Dark dens can be used in conjunction with lights and sound effects to create a calm and relaxing environment. Available in a range of shapes and sizes.

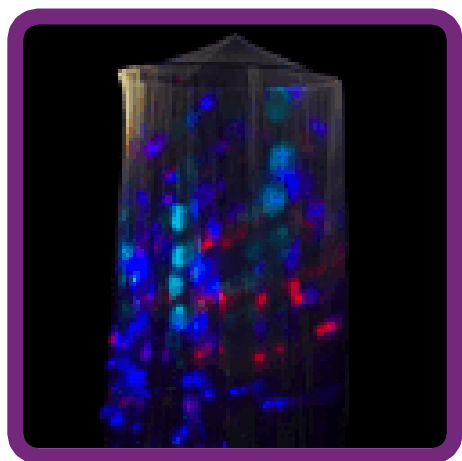

### Pop up dark den

Another type of dark den designed to create a relaxing safe space.

### Aeroblocks Den

This needs to be blown up and then fixed together to create a safe space.
