

## PE and Sport Premium 2018-19

The Government provides additional funding for physical education (PE) and sport in schools. This funding is to be used to improve the quality and breadth of PE and sport provision.

We have been allocated £16,000 + £10.00 per child

**With this funding our main aims are:**

- To continue to improve the quality of teaching and learning in school.
- To increase the number of children participating in extra-curricular sports clubs by providing a wide range of activities.
- To improve the success of sports teams representing Elliston Academy at local competitions.
- To promote the importance of leading healthy a lifestyle - Change 4 Life programme.
- To provide further opportunities for children to learn to swim at least 25 metres.
- To provide at least 60 minutes of physical activity each day.

## How the funding will be used to help us achieve our aims:

- Through our Gold membership with the North East Lincolnshire Schools Sports Partnership we will provide a range of opportunities for children to participate in Interschool competitions.
- Qualified sports coaches / school staff to provide a wide range of after school clubs that the children have identified as areas of interest.
- 2 hours specialist support tailored to the schools need will be provided by the School Sports Partnership E.g. To develop action plans, assist with planning, delivery of lessons to support school staff and support with lesson observations.
- Each year group in key stage 1 and 2 will take part in a sports festival to develop new skills.
- Professional development opportunities for staff to further improve their skills in order to enable them to deliver outstanding PE lessons.
- Grimsby Town Football in the Community to provide breakfast and lunchtime multi-skills sessions
- Grimsby Town to deliver additional PSHE modules linked to leading healthy lifestyles.
- Additional swimming sessions for all children in year 3 and 5.
- Purchase equipment to develop more active playtimes.

## How our 2017/2018 funding made a difference to our pupils

The Sports Funding provided for the 2017/2018 academic year has enabled us to continue with our membership of the local School Sports Partnership. This has given our children access to a wide range of interschool competitions in a variety of sports. In addition to this, all year groups have participated in a multi skills sessions held at a local secondary Academies which enabled children to practice and develop their balance, control and co-ordination through participation in a range of activities. A group of year 5 children, identified as being more able in PE, were selected to take part in the Gifted and Talented programme delivered by local coaches in a wide range of sports. We were able to provide transport to and from each of these events and the skills that the children developed were transferrable to all sports, which as a result these children attained much higher in many aspects of the PE curriculum. We have, once again, trained some year 5 children in

leadership and will be providing opportunities for the children to use their skills to lead some activities at lunchtimes. The School Sports Partnership has also provided opportunities for staff professional development as well as PE leader meetings to ensure leaders are informed of up to date initiatives, the opportunity to network with other school and share good practice. We have been able to continue to purchase new equipment which has been essential for delivering high quality PE lessons and to practise for interschool competitions that we have entered. As a result of this we have performed much better overall in the competitions entered and won both the Tag Rugby and Orienteering competitions. Our funding has enabled us to use a variety of coaches to provide range of after school clubs. These have been free to the families, which has helped to engage those who may have not previously been able to participate in these activities due to family circumstances. We have offered a much wider range of sports this year based on children's requests, resulting in a higher number of children participating in extra-curricular activities. All children in Key stage 2 completed either the Respect or Health and wellbeing modules offered to us through Grimsby Town and we hope to continue to offer many more cross curricular workshops over the next year. Having recognised that many children were still not confident swimmers at the end of year 4, we offered a further 10 weeks lessons to the children in year 5 to increase the number of children achieving 25 metres. All children improved their swimming ability through these sessions and 61% of children achieved the National Curriculum requirement of swimming at least 25 metres. In addition to this, year 3 children had a 1 week taster session of swimming to help increase confidence in the water and begin to work towards swimming competently. We have worked to engage some of our least active children into more physical activity. The Change 4 Life programme proved successful in improving self- esteem, confidence and participation in physical activity. Some of these children have become young leaders, attain higher in PE lessons and have also represented the school in interschool competitions. As a result of our provision and use of the sports funding our attainment continues to improve and we were awarded the School Sports Games gold award for the academic year for improved attainment in PE and school sport. We also achieved the Healthy Places Silver award as a recognition of the work we are doing to improve the health and wellbeing of the whole school community. We hope to continue to use our PE and Sports Funding effectively to continually build on our current provision with improved outcomes for all pupils at Elliston Academy.
