

PE and Sport Premium 2019-20

The Government provides additional funding for physical education (PE) and sport in schools. This funding is to be used to improve the quality and breadth of PE and sport provision.

We have been allocated £16,000 + £10.00 per child

With this funding our main aims are:

- To continue to improve the quality of teaching and learning in school.
- To increase the number of children participating in extra-curricular sports clubs.
- To improve the success of sports teams representing Elliston Academy at local competitions.
- To promote the importance of leading healthy a lifestyle - Change 4 Life programme / Healthy Places Award
- To provide further opportunities for children to learn to swim at least 25 metres.
- To provide at least 60 minutes of physical activity each day.

How the funding will be used to help us achieve our aims:

- Through our Gold membership with the North East Lincolnshire Schools Sports Partnership we will provide a range of opportunities for children to participate in Interschool competitions.
- Qualified sports coaches / school staff will provide a wide range of after school clubs that the children have identified as areas of interest.
- 2 hours specialist support tailored to the schools need will be provided by the School Sports Partnership E.g. to develop action plans, assist with planning, delivery of lessons to support school staff and support with lesson observations.
- Each year group in key stage 1 and 2 will take part in a sports festival to develop new skills.
- Professional development opportunities for staff to further improve their skills in order to enable them to deliver outstanding PE lessons.
- Grimsby Town Football in the Community to provide breakfast and lunchtime multi-skills sessions to increase children's engagement in physical activity.
- Grimsby Town to deliver additional PSHE modules linked to leading healthy lifestyles.
- Additional swimming sessions for all children in year 3 and 5.
- Purchase equipment to develop more active playtimes and to deliver high quality PE lessons.

How our 2018/2019 funding made a difference to our pupils

The Sports Funding for the 2018/2019 academic year has enabled us to continue with our membership of the local School Sports Partnership. This has given our children access to a wide range of interschool competitions in a variety of sports. In addition to this, all year groups have participated in a multi skills sessions held at a local secondary academies which enabled children to practise and develop their balance, control and co-ordination through participation in a range of activities. A group of year 5 children, identified as being more able in PE, were selected to take part in the Gifted and Talented programme delivered by local coaches in a wide range of sports. As a result these children attained much higher in many aspects of the PE curriculum. We have trained some year 5 children in leadership and will be providing opportunities for the children to use their skills to lead

some activities at lunchtimes and during PE lessons. The School Sports Partnership has also provided opportunities for staff professional development as well as PE leader meetings to ensure leaders are informed of up to date initiatives, to give the opportunity to network with other schools and share good practice. We have purchased new equipment which has been essential in developing our playground activities. As a result more children are now engaged in physical activity during these times. Our funding has enabled us to provide a much wider range of sports this year based on children's requests. These have been free of charge to our families, which has contributed to increased numbers of children participating in these activities. All children in Key stage 2 have completed a 12 week PSHE programme, through the Premier League Primary stars, which are linked directly to the PSHE programme of study for key stage 2 offering a variety of interactive opportunities to promote and celebrate inclusion and diversity, develop skills and attributes such as teamwork and resilience, and develop self-esteem by considering personal identity and values. Due to the improved results of swimming through our top up sessions, we have, again this year, offered a further 8 lessons to the children in year 5 to increase the number of children achieving 25 metres. All children improved their swimming ability through these sessions and 66% of our children achieved the National Curriculum requirement of swimming at least 25 metres. In addition to this, year 3 children had a 1 week taster session of swimming to help increase confidence in the water and begin to work towards swimming competently. We have continued to deliver the Change 4 Life programme to engage our least active children into physical activity and to promote healthy lifestyles. This has, once again, proved successful in improving self-esteem, confidence and participation in physical activity. Some of these children have since become young leaders, achieved higher in PE lessons and have also represented the school in interschool competitions. As a result of effective use of the sports funding our attainment continues to improve and we were, for the 2nd year running, awarded the School Sports Games gold award for the academic year for our commitment to school sport and physical activity. We will continue to use our PE and sports funding effectively to continually build on our current provision with improved outcomes for all pupils at Elliston Academy.
