

PE and Sport Premium 2020-21

The Government provides additional funding for physical education (PE) and sport in schools. This funding is to be used to improve the quality and breadth of PE and sport provision.

We have been allocated £16,000 + £10.00 per child

With this funding our main aims are:

- To continue to improve the quality of teaching and learning in school.
- To increase the number of children participating in extra-curricular sports clubs.
- To increase the number of children representing Elliston Academy at local competitions.
- To develop the Intraschool competition programme.
- To promote the importance of leading healthy a lifestyle and engage the least active children - Change 4 Life programme / Healthy Places Award
- To provide further opportunities for children to learn to swim at least 25 metres.
- To provide at least 30 minutes of physical activity each day.

How the funding will be used to help us achieve our aims:

- Our Gold membership with the North East Lincolnshire Schools Sports Partnership will allow us to provide a range of opportunities for children to participate in Interschool competitions.
- Qualified sports coaches / school staff will provide a wide range of after school clubs that the children have identified as areas of interest.
- 2 hours specialist support tailored to the needs of the school will be provided by the School Sports Partnership E.g. to develop action plans, assist with planning, delivery of lessons to support school staff and support with lesson observations.
- Professional development opportunities for staff to further improve their skills in delivering the PE curriculum.
- Grimsby Town Football in the Community to provide breakfast and lunchtime multi-skills sessions to increase children's engagement in physical activity.
- Grimsby Town to deliver additional PSHE modules linked to leading healthy lifestyles.
- Additional swimming sessions for all children in year 3 and 5 to achieve 25 metres by the end of Year 6.
- Purchase equipment to develop high quality PE lessons. Additional equipment bought to support with developing the Intraschool competition programme.
- Playground equipment bought to develop active playtimes. Children to become more active during these times and develop their skills in a range of areas.
- Transport will be used to allow us to take part in Interschool competitions and the Gifted and Talented programme.

How our 2019/2020 funding made a difference to our pupils

The Sports Premium for the 2019/2020 academic year has enabled us to continue with our membership of the North East Lincs School Sports Partnership. This has given our children access to a wide range of interschool competitions in a variety of sports. In addition to this, all year groups have participated in a multi skills sessions held at a local Secondary Academies which enabled children to practise and develop their balance, control and co-ordination through participation in a range of activities. A group of year 5 children, identified as being more able in PE, were selected to take part in the Gifted and Talented programme delivered by local coaches in a wide range of sports. As a result, these children attained much higher in many aspects of the PE curriculum and became effective young leaders. The School Sports Partnership has also provided opportunities for staff professional development, as well as PE leader meetings to ensure leaders are informed of up to date initiatives, to give the opportunity to network with other schools and share good practice.

To increase the level of physical activity for children at Elliston, we have had training in active maths and active literacy sessions. Owen Denovan from the SSP came into school to model lessons and staff have since had the confidence and skills to continue with this. The impact of these sessions show that children are more engaged in lessons, have a greater memory of key facts and behaviour has improved for many children.

We have purchased a new Scheme of work for PE (Primary Steps In PE) The scheme aims to provides children with the opportunity to acquire new skills and develop existing skills that can be applied across a wide range of activities and sports. Children will gain experiences which they can build on to give them a better chance of pursuing a healthy life through sport. This will be introduced fully in September 2020.

To develop our Intraschool competition programme, we have purchased more equipment to allow us to hold competitions on a bigger scale. This will give more children the opportunity to apply their skills into a competitive situation and increase their skills in teamwork, resilience, determination and achieving their personal best. In addition to this, new equipment which has been an essential in developing physical activity provision at playtimes and lunchtimes. As a result, more children are now engaged in physical activity during these times.

Our funding has enabled us to provide a much wider range of sports this year based on children's requests. These have been free of charge to our families, which has contributed to increased numbers of children participating in these activities.

All children in Key stage 2 have completed a 12 week PSHE programme, through the Premier League Primary stars, which are linked directly to the PSHE programme of study

for key stage 2 offering a variety of interactive opportunities to promote and celebrate inclusion and diversity, develop skills and attributes such as teamwork and resilience, and develop self-esteem by considering personal identity and values.

We have continued to deliver the Change 4 Life programme to engage our least active children into physical activity and to promote healthy lifestyles. This has, once again, proved successful in improving self-esteem, confidence, and participation in physical activity. Some of these children have since become young leaders, achieved higher in PE lessons, and have also represented the school in interschool competitions. In addition to this, we have taken part in competitions / events for less active children and / or children on the SEND register. This has proved to be successful and has given those children a real confidence boost and self-belief. This has shown on PE lessons where they have improved performance, improved attitude, and a real desire to succeed.

Due to Covid 19, we have not been able to provide additional swimming lessons for the children, however this will continue in the next academic year. We will continue to use our PE and sports funding effectively to continually build on our current provision with improved outcomes for all pupils at Elliston Academy.
