

## The Coronavirus will not stop Wear Yellow Day! Friday 19<sup>th</sup> June 2020

As some of you may be aware, we have two girls in our school who have Cystic Fibrosis. The Covid-19 situation is particularly difficult for them, as they have to shield away from any risks as the virus could make them very poorly with their CF. This means they have had to stay in their house for the last ten weeks and now, are only allowed out for short walks.

At Elliston Primary Academy, we have supported the Cystic Fibrosis Trust over the last two years, to not only support these girls, but also two members of staff who have Cystic Fibrosis in their family.

*This year our annual Wear Yellow Day will be a little different!*

If you are in school, we would like you to wear yellow and make yellow decorations to hang in the windows. If you are at home, we would like you to wear yellow and make yellow decorations to hang in your own windows! Anyone who walks around our local area will see that Elliston children care, whether they are at school or at home.

Many thanks for your continued support. We know that together we will raise a lot of awareness.

Our school website has a special video for you to watch!
